for Fire-Rescue Department**

The following agenda item is scheduled to go before City Council on May 24, 2023.

Draft Agenda Item #29; 23-1204

Authorize the purchase of automated chest compression systems for the Fire-Rescue Department with Stryker EMS through the National Association of State Procurement Officials cooperative agreement - Not to exceed \$344,455.02 - Financing: Coronavirus State and Local Fiscal Recovery Funds

BACKGROUND

The purchase of automated chest compression systems will provide high-quality and consistent chest compressions in emergency situations including patient movement, transportation, and during prolonged CPR. This automated CPR device will be used to perform life-saving chest compressions during transport of patients while Fire-Rescue Department personnel remain safely seated. These systems are carried on all dispatched Emergency Medical Service Field Supervisor vehicles driven by Command Staff. This device reduces fatigue in personnel by eliminating prolonged resuscitation attempts and switching personnel.

The National Association of State Procurement Officials cooperative agreement is authorized by Chapter 791 of the Texas Government Code and Subchapter F, Chapter 271, Texas Local Government Code. Section 271.102 of the Texas Local Government Code which authorizes a local government to participate in a Cooperative Purchasing Program with another local government or a local cooperative organization.
