**STAFF ANALYSIS:**

**Land Use:**

	Zoning	Land Use
Site	R-7.5(A)	Child Care

**Land Use Compatibility:**

The request site is within an R-7.5(A) Single Family District and is currently occupied by the applicant. The R-7.5(A) District allows for child-care facility uses with a specific use permit.

Other uses surrounding the area of request include single family residential to the east, west, and south, and a school to the north. The child-care use on the site is complimentary to the community services developments that have previously occurred along Forney Road.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city. The child-care use will be complimentary to the surrounding area and serve the existing community.

**Landscaping:**

Landscaping will be provided in accordance with the landscaping requirements in Article X, as amended.

**Parking:**

Per code, the parking for a child-care facility is 1 space per 500 square feet of floor area unless otherwise determined in the SUP. The applicant is requesting four parking spaces on the site.

**Market Value Analysis:**

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is currently in an “H” MVA area that extends to the south, east, and west. North of the request area across Forney Road is an “F” MVA cluster.
