DATE FILED: April 17, 2020

LOCATION: West side of Skillman Street, north of Woodcrest Lane

COUNCIL DISTRICT: 14

MAPSCO: 36 G

SIZE OF REQUEST: ± 1.04 acres

CENSUS TRACT: 2.02

REPRESENTATIVE: Rob Baldwin, Baldwin Associates

APPLICANT/OWNER: Martinez Wallace, LLC.

REQUEST: An application for (1) an amendment to Planned Development District No. 493, and (2) amendment to and renewal of Specific Use Permit No. 1976 for child-care facility and private school uses on property zoned Planned Development District No. 493.

SUMMARY: The purpose of the request is to 1) remove the private school use, 2) further decrease Article X landscape requirements, 3) allow an internal sidewalk along the eastern portion of the property, 4) reconfigure the off-street parking layout, and 5) relocate the trash receptacle and enclosure for an amendment to the SUP, 6) increase the enrollment by 60 students for a total enrollment of 180 students from 120 and 7) allow a structure to encroach into the side yard and rear yard setbacks for an amendment to the PD, and 8) further decrease Article X landscape requirements for an amendment to the PD. [Spanish House]

CPC RECOMMENDATION: Approval of (1) an amendment to Planned Development District No. 493, subject to a revised development plan; and approval of (2) an amendment to and renewal of Specific Use Permit No. 1976 for a child-care facility and private school uses for a five-year period with eligibility for automatic renewals for additional five-year periods, subject to a revised site plan and conditions.

STAFF RECOMMENDATION: Approval of (1) a revised development plan for Planned Development District No. 493; and approval of (2) an amendment to and renewal of Specific Use Permit No. 1976 for a child-care facility and private school uses for a five-year period with eligibility for automatic renewals for additional five-year periods, subject to a revised site plan and staff's recommended conditions.

BACKGROUND INFORMATION:

- On December 10, 1997, the City Council approved PD No. 493 to be a nonresidential zoning district with 18 permitted uses, most of which are allowed by SUP.
- On August 8, 2012, the City Council approved SUP No. 1976 for a child-care facility use for a three-year period with five-year automatic renewals.
- On June 16, 2015, the City Council approved an amendment to SUP No. 1976 to allow dual uses on the site, that of a child-care facility use and a private school use. Additionally, the request increased the floor area from 12,265 square feet by 930 square feet for a total of 13,195 square feet of floor area. The SUP was also renewed for a five-year period with five-year automatic renewals.
- The request seeks to 1) remove the private school use, 2) further decrease Article X landscape requirements, 3) allow an internal sidewalk along the eastern portion of the property, 4) reconfigure the off-street parking layout, and 5) relocate the trash receptacle and enclosure for an amendment to the SUP, 6) increase the enrollment by 60 students for a total enrollment of 180 students from 120 and 7) allow a structure to encroach into the side yard and rear yard setbacks for an amendment to the PD, and 8) further decrease Article X landscape requirements for an amendment to the PD.

Surrounding Zoning History: There have been no zoning requests within the last five years.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing ROW
Skillman Street	Collector	70 feet

Traffic:

The Engineering Section of the Department of Sustainable Development and Construction has reviewed the request and determined that the amendment and renewal will not significantly impact the surrounding roadway system.

STAFF ANALYSIS:

Comprehensive Plan:

The forwardDallas! Comprehensive Plan was adopted by the City Council in June 2006. The forwardDallas! Comprehensive Plan outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The request complies with three of the following land use policies except providing the appropriate transitions between non-residential use and neighborhoods. The PD requires a minimum side and rear yard setback with a landscape buffer to further separate the use(s) from the residential district. However, the request seeks to further encroachment into the minimum setbacks and further decrease the landscape requirements established by the PD to protect the neighborhood.

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics. Acknowledge the importance of neighborhoods to the city's long-term health and vitality.

1.1.5.3 Encourage neighborhood-serving office, retail, or other non-residential uses to be located in residential community areas, primarily on significant roadways or at key intersections.

1.1.5.4 Provide appropriate transitions between non-residential uses and neighborhoods to protect stability and quality of life.

Land Use:

	Zoning	Land Use
Site	PD No. 493, SUP No. 1976	Child-Care Facility, Private School
North	MF-1(A), PD No. 873	Trail, DART, Multifamily
East	R-7.5(A)	Single Family
South	R-7.5(A)	Single Family
West	R-7.5(A)	Single Family

Land Use Compatibility:

The site is surrounded by low-density residential uses to the west, south and east across Skillman Street and abuts the elevated portion of the DART right-of-way (Blue Line) and the Katy Trail Extension to the north.

The request seeks to 1) remove the private school use, 2) further decrease Article X landscape requirements, 3) allow an internal sidewalk along the eastern portion of the property, 4) reconfigure the off-street parking layout, and 5) relocate the trash receptacle and enclosure for an amendment to the SUP, 6) increase the enrollment by 60 students for a total enrollment of 180 students from 120 and 7) allow a structure to encroach into the side yard and rear yard setbacks for an amendment to the PD, and 8) further decrease Article X landscape requirements for an amendment to the PD.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

Staff recommends approval of an amendment to remove the private school use, to reconfigure the off-street parking layout, to relocate the trash receptacle and enclosure, to allow an internal sidewalk along the eastern portion of the property for a five-year period with eligibility for automatic renewals for additional five-year periods, subject to a revised site plan and staff's conditions. Staff does not support the amendment of the PD for the encroachments of a structure into the required side and rear yards because the original setback is intended to buffer the non-residential use from the surrounding single-family dwellings. The setback standard encourages placement and separation of the two uses. The setback is intended to provide and encourage relief to neighbors to enjoy private outdoor living spaces without the visibility of structures peering above the screening fence and through landscape buffers and provide building separation for fire protection. Additionally, the request does not provide a definitive number of structures allowed to encroach into the setbacks. Therefore, staff also does not recommend changes in the landscaping as the proposed plan removes landscape screening walls buffering the use from the immediately adjacent residential use.

The City Plan Commission recommended approval of 1) an amendment to Planned Development No. 493, subject to a revised development plan to include and allow encroachment of the rear and side yard setbacks for the accessory structure; and approval of 2) an amendment to and renewal of Specific Use Permit No. 1976 for a child-care facility and private school uses for a five-year period with eligibility for automatic renewals for additional five-year periods, subject to a revised site plan, compliance with existing landscape plan and conditions noting the following: 1) the addition of landscaping strip along the west fence line as described on the original 2015 plan with shrubs, grasses or other appropriate landscaping; 2) the planting of shrubs in the parking lot area in the front as shown in the original 2015 plan that were not planted

Z190-246(PD)

or were lost; and 3) the removal of the parallel parking stripes along the western fence line of the parking lot on property

Development Standards:

District	Setbacks		Density FAR	Height	Lot Coverage	Primary Uses
	Front	Side/Rear				
PD No. 493	22'	10'/11'	15,000 sq. ft	30'	35%	School, Childcare, Recreational Uses.

Parking:

The off-street parking requirement for a child-care facility is one space for every 500 square feet of floor area. The approximately 13,195 square foot use requires 26 off-street parking space with the site providing 43 spaces.

Landscaping:

The revised PD No. 493 landscape plan reduces the landscape requirement and ensures noncompliance of Article X. The 2012 PD landscape plan was approved by Council with reduced buffer zone noncompliant with the minimum width of ten feet existing next to an R-7.5(A) Single Family District. The primary reduction in landscaping is identified on the west side of the parking lot. The landscape along the western portion of the property, adjacent to the parking lot has not been planted. Also, the internal plantings (i.e. flowers, bushes, shrubs) have not been planted within the parking lot. After the 2012 approval, the property altered the area from landscaping to surface for vehicular parking and/or stacking. Since staff does not find any physical changes to tree conditions that warrant a change or further reductions in the requirement, staff cannot support the request to further reduce landscape requirements. As a result, the City Plan Commission supported staff recommendation and recommended compliance with the existing landscape plan approved in 2012.

Market Value Analysis

Market Value Analysis (MVA), is a tool to aid residents and policymakers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. The area of request is not within an identifiable MVA category. However, the request site is adjacent to an "C" MVA category to the west, south, and east along Woodcrest Lane; and an "E" MVA category to the north along Skillman Street.
