FINANCIAL FORECAST REPORT

The Financial Forecast Report (FFR) provides a summary of financial activity through December 31, 2020, for the General Fund and other annual operating funds of the City. The Adopted Budget column reflects the budget adopted by City Council on September 23, 2020, effective October 1, 2020, through September 30, 2021. The Amended Budget column reflects City Council-approved transfers between funds and programs, department-initiated transfers between expense objects, approved use of contingency, and other amendments supported by revenue or fund balance.

Year-to-date (YTD) actual amounts represent revenue or expenses/encumbrances that have occurred through the end of the most recent accounting period. Departments provide the year-end (YE) forecast, which projects anticipated revenues and expenditures as of September 30, 2021. The variance is the difference between the FY 2020-21 amended budget and the YE forecast. Variance notes are provided when the YE forecast is +/- five percent of the amended budget and/or if YE expenditures are forecast to exceed the amended budget.

General Fund Overview

The General Fund overview provides a summary of financial activity through December 31, 2020.

	FY 2020-21 Adopted Budget	FY 2020-21 Amended Budget	YTD Actual	YE Forecast	Variance
Beginning Fund Balance	\$235,992,351	\$235,992,351		\$235,992,351	\$0
Revenues	1,437,039,483	1,437,039,483	425,816,029	1,449,602,523	12,563,040
Expenditures	1,437,039,483	1,437,039,483	306,658,310	1,440,573,854	3,534,371
Ending Fund Balance	\$235,992,351	\$235,992,351		\$245,021,021	\$9,028,669

Fund Balance. As of December 31, 2020, the beginning fund balance for the adopted and amended budget and YE forecast reflects the FY 2019-20 unaudited unassigned ending fund balance as projected during budget development (July 2020). The ending fund balance for the adopted and amended budget does not reflect changes in encumbrances or other balance sheet accounts. We anticipate updates to the beginning fund balance after the FY 2019-20 audited statements become available in April 2021.

Revenues. Through December 31, 2020, General Fund revenues are projected to be \$12,563,000 over budget primarily due to sales tax revenue, which is projected to be \$16,285,000 over budget based on actual collection trends. The City's collections for the first three months of FY 2020-21 are \$10,902,000 over budget. This is partially offset by interest earnings, which are projected to be \$3,279,000 under budget because of the Federal Reserve lowering interest rates.

Expenditures. Through December 31, 2020, General Fund expenditures are projected to be \$3,534,000 over budget primarily due to DPD and DFR uniform overtime, which is partially offset by salary savings from vacant civilian positions.

3 Miscellaneous. Revenues are forecast to be \$431,000 over budget primarily due to an unbudgeted legal settlement with the AT&T Performing Arts Center for facility repair costs incurred by the City.

4 Interest. Revenues are forecast to be \$3,279,000 under budget primarily due to the Federal Reserve lowering interest rates.

VARIANCE NOTES

The Enterprise, Internal Service, and Other Funds summaries include the beginning fund balance with the YE revenue and expenditure forecasts. As of December 31, 2020, the YE forecast beginning fund balance represents the FY 2019-20 unaudited projected ending fund balance and does not reflect additional YE savings. We anticipate adjustments to the FY 2020-21 amended beginning fund balance after FY 2019-20 audited statements become available in April 2021. Variance notes are provided below for funds with a YE forecast variance of +/- five percent, YE forecast projected to exceed budget, or projected use of fund balance.

1 Convention & Event Services. CCT revenues are projected to be \$22,494,000 under budget due to various event cancellations as a result of COVID-19. CCT expenses are also projected to be \$22,494,000 under budget primarily due to a reduction in payments to VisitDallas, Spectra Venue Management, and costs that would have been incurred for now-canceled events.

2 Sanitation Services. SAN revenues are projected to be \$787,000 under budget due to decreased landfill activity by non-contract customers. SAN expenditures are projected to be \$3,041,000 over budget due to the shingle cleanup at the former Blue Star Recycling facility. SAN anticipates the use of fund balance to offset lost revenue.

3 Sustainable Development & Construction. DEV's budget was increased by \$2,000,000 on January 27 by resolution #21-0266 to authorize a professional services contract for supplemental permit plan review and inspection services. DEV anticipates the further use of fund balance to offset the increased expenses.

4 Water Utilities. DWU revenues are projected to be \$12,716,000 under budget primarily because of the third of three annual credits issued to wholesale customers as a result of the Sabine River Authority (SRA) settlement, as well as an increase in unpaid utility bills and elimination of past due fees associated with COVID-19. DWU expenses are projected to be \$12,716,000 under budget primarily due to salary savings, decreased street rental payments, and reduced capital construction transfers. DWU anticipates the further use of fund balance to offset additional lost revenue.

ECONOMIC INDICATORS**Sales Tax**

The current sales tax rate is 8.25 percent—6.25 percent goes to the state, one percent to the City, and one percent to DART. In FY 2019-20, the City received \$310.7 million in sales tax revenue, but because of COVID-19 and the subsequent economic decline, we budgeted only \$296.3 million for FY 2020-21. As of December 31, 2020, the forecast for sales tax revenue is \$16,285,000 over budget—we will update the forecast throughout the year as additional information becomes available. The charts in this section provide more information about sales tax collections.

Note: Net sales tax payments by industry do not include the City's self-reported sales tax numbers.

ECONOMIC INDICATORS

Hotel Occupancy Tax

The City collects hotel occupancy taxes (HOT) on hotel, motel, bed and breakfast, and short-term rentals in the city limits. The HOT rate in Dallas is 13 percent of the cost of the room (not including food served or personal services not related to cleaning and readying the space for the guest)—six percent goes to the state, and seven percent goes to the City. HOT is the largest single revenue source for the Kay Bailey Hutchison Convention Center, and data is typically updated every two months.

Love Field Enplanements

An enplanement is when a revenue-generating passenger boards an aircraft. Enplanements are the most important air traffic metric because enplaned passengers directly or indirectly generate 80 percent of Aviation revenues. Typically, Aviation generates only 20 percent of total operating revenues from non-passenger-related activities.

ECONOMIC INDICATORS

Building Permits

Building permits (required for all construction in Dallas) can provide insight into upcoming activity in the housing market and other areas of the economy. Permits are a key indicator of the confidence developers have in the economy; likewise, a decline can indicate developers do not anticipate economic growth in the near future. In some cities, this measure may be a leading indicator of property tax value growth, but in Dallas, the property tax forecast model includes other variables like wage/job growth, housing supply, gross domestic product, population, vacancy rates, and others.

DALLAS 365

The Dallas 365 initiative aligns 35 key performance measures to our eight strategic priorities. The department responsible for each measure is noted at the end of the measure's description, and last year's performance is included if available. If FY 2019-20 data is not available, N/A is listed.

Year-to-date (YTD) and year-end (YE) targets are presented for each measure. YTD targets may vary based on seasonality of the work. Each month, we compare 1) the YTD target with the actual performance for the current reporting period and 2) the YE target with the department's forecasted performance as of September 30, 2021.

Measures are designated "on target" (green) if actual YTD performance is equal to or greater than the YTD target. If actual YTD performance is within five percent of the YTD target, it is "near target" (yellow). Otherwise, the measure is designated "not on target" (red). The same methodology applies to YE forecasts. Variance notes are provided for each red measure.

VARIANCE NOTES

#3. As of February 1, DEV estimates residential permit review times at eight weeks, down from 13 weeks in December. On February 10, City Council will consider awarding a consultant contract to improve the review process. Staff anticipates a three-week review time once improvements are fully implemented.

#7. SAN has staggered collection start times to comply with COVID-19 restrictions, which adversely impacts completion times. Additionally, SAN continues to struggle to fill vacant positions.

#8. Multiple system malfunctions and COVID-19 have adversely impacted response times. 311 anticipates improvement as they continue to implement technology enhancements, fill vacancies, and move agents from training to call-taking.

#10. HOU received HIPP applications October 17, 2020, and with the goal of 120 days to close, the department anticipates closings in February or March 2021.

#17. DPD has multiple 911 call-taker candidates in the background review process and anticipates a return to full staffing soon. DPD is actively promoting the use of the Dallas Online Reporting System (DORS) for lower-priority calls, which will positively impact response times in the coming months.

#18. DPD will work to reduce crimes against persons through initiatives outlined in the 2020 crime plan and the efforts of the violent crime task force.

#24. Checkouts were lower than anticipated in December, possibly because of the holidays among other factors.

#27. Due to COVID-19 restrictions, PKR has limited its programs and services. PKR hopes to resume programming adapted to COVID restrictions in spring/summer 2021.

FY 2020-21 Dallas 365

#30. Contract work was delayed in December to finish previous months' work; PBW anticipates being back on target next month.

#33. Residents took 312 trips through December 2020, compared to 320 through December 2019. OCC anticipates fluctuations in usage due to the pandemic. The City will address ridership performance goals with DART at its quarterly meeting in February.

BUDGET INITIATIVE TRACKER

The Budget Initiative Tracker reports on 35 activities included in the FY 2020-21 budget. For each initiative included in this report, you will find the initiative number, title, description, status, and measure. At the end of each description, the responsible department is listed. In the Spotlight

Budgets are tight for many of our residents, and during the pandemic, those budgets have been stretched even further. HIPP assists residents who need home repairs to make sure they and their families feel safe where they live. The program provides forgivable loans for structural or health and safety repairs, including foundation, siding, roofing, doors and windows, or major gas, plumbing, and electrical repairs. To ensure public health, staff hosted a drive-through application drop-off day in December. Staff anticipate closing loans with approved applicants in February or March.
