

Brush & Bulky Trash Collection Program Performance and Service Delivery Alternatives

Dallas City Council Briefing
June 2, 2021

Joey Zapata, Assistant City Manager

Tim Oliver, Interim Director Sanitation Services

Presentation Overview

- Background
- Purpose
- Current program challenges
- 2017 Operational Survey
- Service delivery scenarios
- Requested Council feedback
- Next steps

- Sanitation Services provides monthly brush and bulk collections service
 - Serves approximately 250,000 residential households
 - Collects monthly during designated collection weeks
 - First Monday through Fourth Monday
 - Allows comingled bulk and brush set-outs
 - 10 cubic yard limit (~10 washing machines)
- The program is budgeted at over \$22M annually
 - 125 truck drivers/equipment operators
 - 35 grapple trucks and 52 tractor trailers

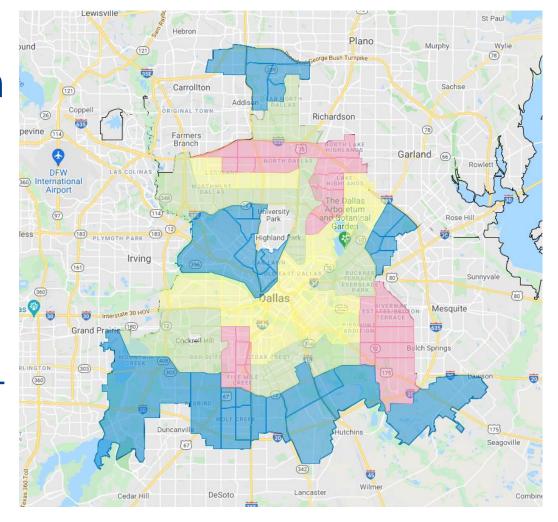

- Collections are performed by each of 5 Sanitation Collection Districts
 - District 1 Southeast
 - District 2 Southwest
 - District 3 West/Northwest
 - District 4 North
 - District 5 Central/Northeast

- After considering several alternative service models, the City initiated an incremental approach in 2019
 - 04/2015 Quality of Life and Environmental
 - 10/2015 Quality of Life and Environmental
 - 11/2016 Quality of Life and Environmental
 - 02/2017 Quality of Life and Environmental
 - 02/2018 Quality of Life, Arts and Culture
 - 05/2018 Quality of Life, Arts and Culture
 - 06/2018 City Council Briefing Remanded back to committee
 - 01/2019 Quality of Life, Arts and Culture Incremental Approach Phase I
 - 02/2019 City Council Briefing Incremental Approach Phase I
 - 06/2019 City Council Meeting Ordinance Adoption
 - 07/2020 10 cubic yard volume limit took effect
 - 08/2020 Environment and Sustainability Incremental Approach --Phase II

Purpose

- Discuss the current program, performance, and its challenges
- Provide a comparison of Dallas' program to others
- Present service delivery alternatives
- Receive feedback and direction for implementation

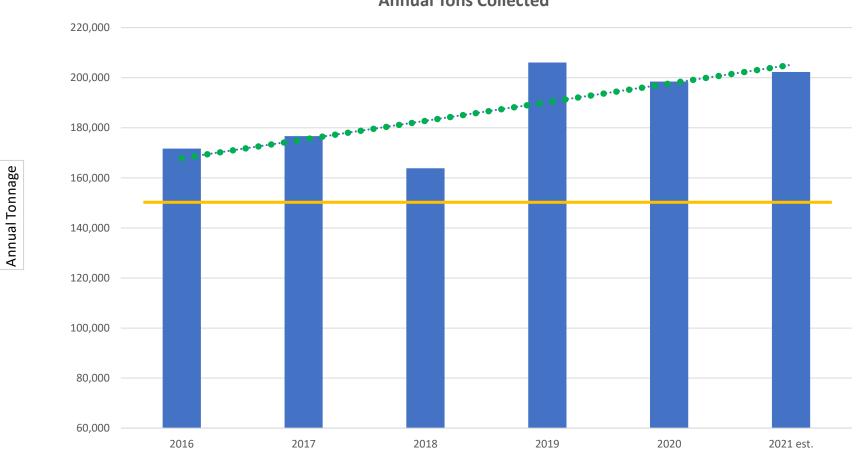

- Lack of Predictability
- Volume Spikes = delayed collections
- Length of time at the curb for collection
- Misuse and abuse (compliance)
- Lack of ability to divert green waste material
- Department wide labor shortage
 - Starting City truck driver pay is \$16.50/hour versus local industry (\$18-20/hour starting pay)
 - A tenured, private sector garbage/recycling truck driver pay can be as high as \$30/hour

| Annual Increases | | | | | | | |

^{*} Austin - Bulk and Brush collection weeks not always on the same week and not always every 3 months.

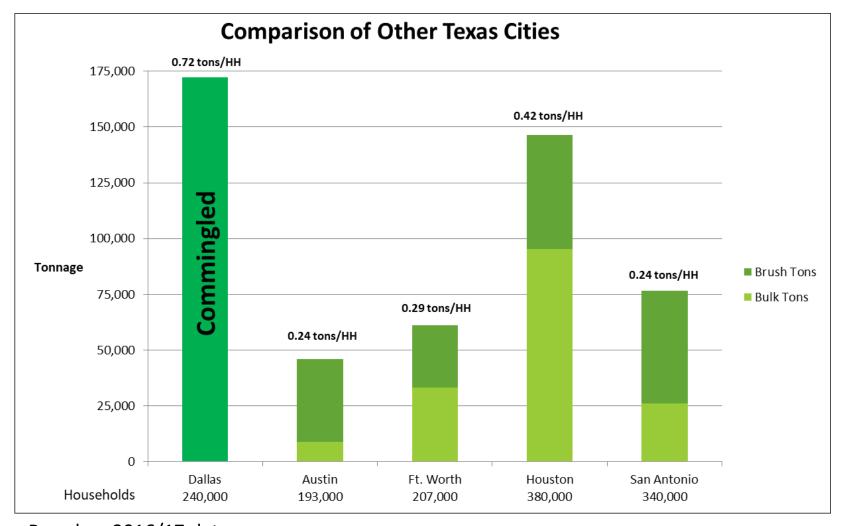

Note: Yard waste typically includes leaves, grass clippings, and small twigs/branches (branches typically tied/bundled or limited by diameter and length). Austin, Ft. Worth and San Antonio require bagged yard waste to be in paper yard/lawn bags and Houston requires use of approved compostable bags.

^{**} San Antonio - Residents notified one week before their bulk or brush collection is scheduled to begin.

Comparison to Other Texas Cities

2017 Window Survey

- A 2017 window survey of 5,250 homes over 6 months found that:
 - Most residents used the program at least once
 - 73% of residents used the program only once or twice
 - Over 55% of the material placed for collection was brush alone, 17% was commingled brush and bulk trash, and 28% was bulk trash only
 - About 85% of setouts were less than 5 cubic yards
 - About 96% of setouts were 10 cubic yards or less
 - 2020 program update was forecasted to only eliminate 25,000 35,000 tons

- In FY 2016-17 Sanitation Services, with assistance of a solid waste consultant, conducted a review of the current collection program
- The program review included:
 - Review of the Dallas' current collection program, including operational set up and collection challenges
 - Benchmarking related to other Texas cities
 - Development of 3-4 collection alternatives to consider
 - Diversion, financial impacts, and implementation considerations of collection alternatives

- Program Alternative Definitions
 - Yard Trimmings Grass trimmings, leaves, small branches and similar items resulting from yard maintenance
 - Brush Large piles of tree limbs, typically no more than 50 lbs. per cut nor greater than 10' in length
 - Bulky Waste Large items such as furniture and appliances that do not fit in the residential refuse cart; does not include excess refuse

Bulk and Brush Collection Scenarios and Potential Long-Term Savings

| Material Type | Existing System | Scenario 1* | Scenario 2* | Scenario 3* | Scenario 4* | |
|--------------------------------|-----------------|-------------|---------------------------|-------------------|--------------|--|
| Yard Trimmings | | Monthly | Monthly | Every Other Month | Monthly | |
| Large Brush | Monthly | wionany | Twice per Year | Every Other Month | | |
| Bulky Items | | Call- in** | Call- in** Twice per Year | | Quarterly*** | |
| Estimated Long-term Savings | | (\$2.9M) | (\$4.0M) | (\$2.2M) | (\$1.1M) | |

^{**} Analysis assumes a certain number of collections per year, with additional collections charged at an additional fee.

Bulk and Brush Collection Scenarios and Estimated Collection Tonnage

| Material Type | Existing System | Scenario 1 | Scenario 2 | Scenario 3 | Scenario 4 |
|-------------------|-----------------|------------|------------|------------|------------|
| | | | | | |
| Yard Trimmings | | 35,000 | 35,000 | | 35,000 |
| | | | | 73,500 | |
| Large Brush | | 54,250 | 31,000 | | 54,250 |
| | | | | | |
| Bulky Items | | 31,000 | 31,000 | 46,500 | 38,750 |
| | | | | | |
| Total | 176,232 | 120,250 | 97,000 | 120,000 | 128,000 |
| Annual Pounds per | | | | | |
| Household | 1,469 | 1,002 | 808 | 1,000 | 1,067 |

^{***} Quarterly on same week as brush and yard waste, but separated at the curb.

- Scenario 1 includes:
- Monthly Combined Yard Trimmings and Large Brush (10 cubic yard limit)
- On-Call bulk collection 2 times per year
 - Enforce "bulk" definition as large item that doesn't fit into trash roll cart, not additional quantities of refuse
- Pro/Con
 - Retains monthly brush
 - ✓ On-demand bulk service only
 - Most difficult program to manage and maintain
 - Piloted but not implemented in Austin and Phoenix in 2018
 - Set-outs not "called in" potentially left at curb

- Scenario 2 includes:
- Monthly Yard Trimmings
- Twice per Year Large Brush
- Twice per Year Bulky Items
 - Enforce "bulk" definition as large item that doesn't fit into trash roll cart, not additional quantities of refuse
- Pro/Con
 - ✓ Largest volume reduction and annual cost savings
 - Short term cost savings neutral due to equipment need and material diversion operations development

- Scenario 3 includes: Staff Recommendation B
- Alternating Brush and Bulky Item months
 - Brush -- 8-10 cubic yard limit
 - Bulky Waste
 - Enforce "bulk" definition as large item that doesn't fit into trash roll cart, not additional quantities of refuse
 - 8-10 cubic yard limit or limited number of items
- Pro/Con
 - ✓ Easiest and quickest to implement
 - ✓ Would allow for diversion of organic material
 - Could allow for brush set-out in bulky trash month, but would not be diverted and could impact timely collections

- Scenario 4 includes: Staff Recommendation A
- Monthly Brush (10 cubic yards)
- Quarterly or Semi-Annual Bulky Trash Pickup
 - Enforce "bulk" definition as large item that doesn't fit into trash roll cart, not additional quantities of refuse
 - 8-10 cubic yard limit or limited number of items
 - Bulk would be collected during same week as brush
- Pro/Con
 - ✓ Would allow for green waste separation
 - √ 2018 QOL Committee recommendation
 - Would require substantial outreach and education

- Scenario 5 –
- Program status quo with pre-arranged contractor assistance and surcharge to recover vendor cost
 - Combined Brush and Bulky Trash Collection (10 cubic yard limit)
 - Contractor assistance on historically high-volume months.
- Surcharge costs would be calculated in arrears and user rate adjusted to cover the expense
- Pro/Con
 - ✓ Least amount of change
 - ✓ Limits impact to monthly sanitation fee to customers
 - Does not move towards diversion goals
 - May still result in delays and relies on contractor availability

Requested Guidance

 Request City Council feedback on service delivery alternatives for implementation

Next Steps

 With City Council feedback on service delivery alternatives, staff will prepare program changes and public education for implementation

Brush and Bulky Trash Collection Program, Performance and **Service Delivery Alternatives**

Dallas City Council Briefing June 2, 2021

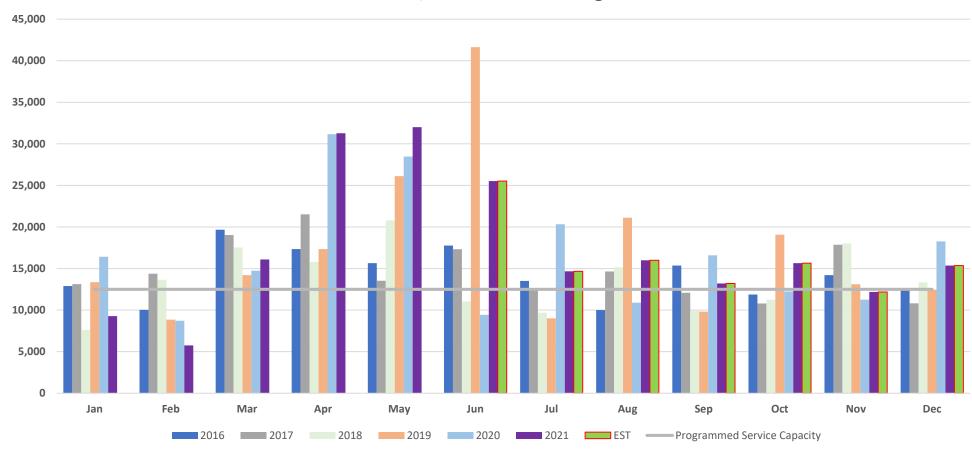

Joey Zapata, Assistant City Manager City of Dallas

> Tim Oliver, Interim Director Sanitation Services City of Dallas 27

Collection Challenges – Large Set Outs

Collection Challenges – Mixed Set Outs

Residential Fee History & Projection

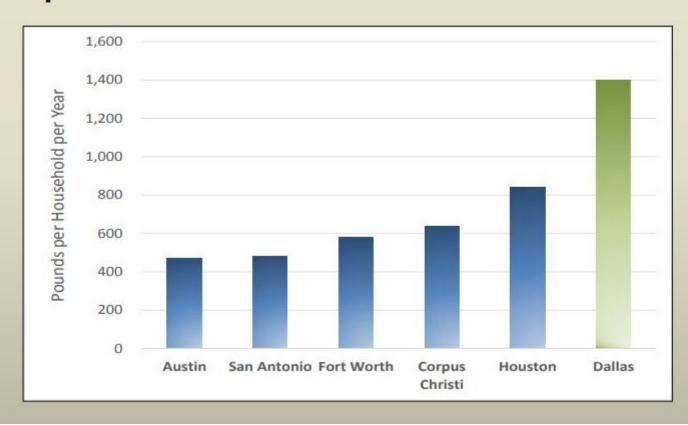

| FY | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 |

Comparison – Other Texas Cities

Comparison – Other Texas Cities

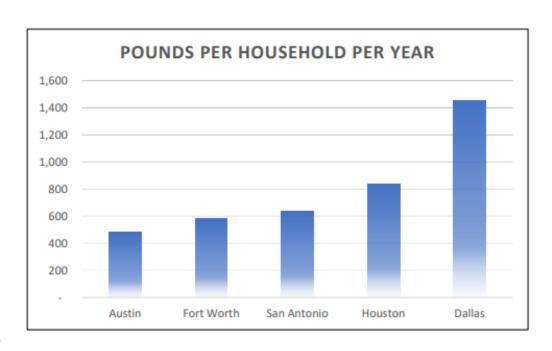

Comparison – Other Texas Cities

- Austin (193,000 households)
 - 2X per year bulk and 2x per year brush (restrictions)
 - · Weekly yard waste (restrictions)
- Ft. Worth (207,000 households)
 - Monthly bulk (10 CY limit)
 - No monthly brush, but weekly yard waste (restrictions)
 - Early set-out: Friday 6pm
- Houston (380,000 households)
 - Alternating bulk and brush months (8 CY limit)
 - Weekly yard waste (restrictions)
 - Early set-out: Friday 6pm
- San Antonio (340,000 households)
 - 2X per year bulk and 2x per year brush (8 CY limit)
 - Notified a week before collection is scheduled

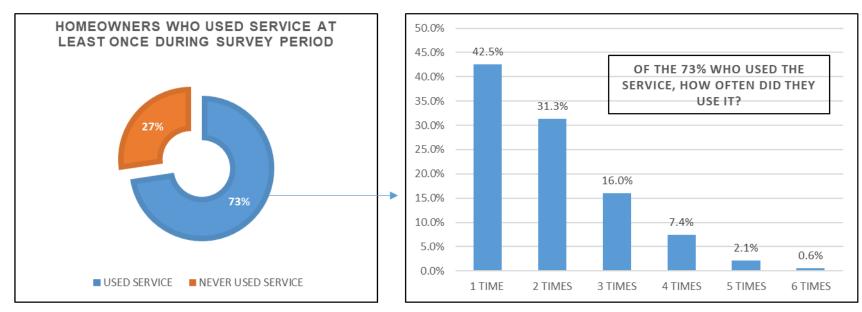

- In 2017, staff conducted field surveys to:
 - > Determine how customers utilized the current program
 - Frequency of use (participation levels)
 - Type of material set out (brush, non-brush, bagged leaves)
 - Set-out sizes (cubic yards)
- Two survey components:
 - ➤ A primary 6 month survey
 - 21 geographically identified areas Citywide
 - ~250 homes in each area (same 5,250 surveyed each month)
 - Odd side addresses for odd brush weeks and even side addresses for even brush weeks
 - March, April, May, June, November and December
 - At least one area in each Council District and four areas in each Sanitation District (one per brush week)
 - ➤ A secondary "support" survey was conducted in July only (2,500 separate homes)

Primary Survey Results - Participation

Note: Of the total number of opportunities available during the 6 months, only 24% of the opportunities utilized.

The survey indicated the following regarding the sizes of individual set outs:

| Set Out Size | Percentage |
|-------------------------|------------|
| Less than 5 cubic yards | 85% |
| 5 – 10 cubic yards | 11% |
| 11 – 15 cubic yards | 2% |
| Over 15 cubic yards | 2% |

Note:

- 1 Cubic Yard ~Two 96-gallon roll carts.
- 10 Cubic Yards ~ 16 full sized clothes dryers or 6 full sized refrigerators
- 16-18 Cubic Yards ~ Minivan
- 35 Cubic Yards ~ One full brush trailer

Primary Survey Results – Size Examples

Recent Survey Results - Variations

- There were some slight differences among the 21 areas surveyed related to:
 - Composition of materials and use of bagged material
 - Brush/yard waste only ranging from 30% 77%
 - Non-brush ranging from 8% 53%
 - Volumes of material set out for collection
 - Over 10 cubic yards ranging from 0 11.9%
 - ➤ Participation and utilization rates
 - Participation ranging from 38% 88%

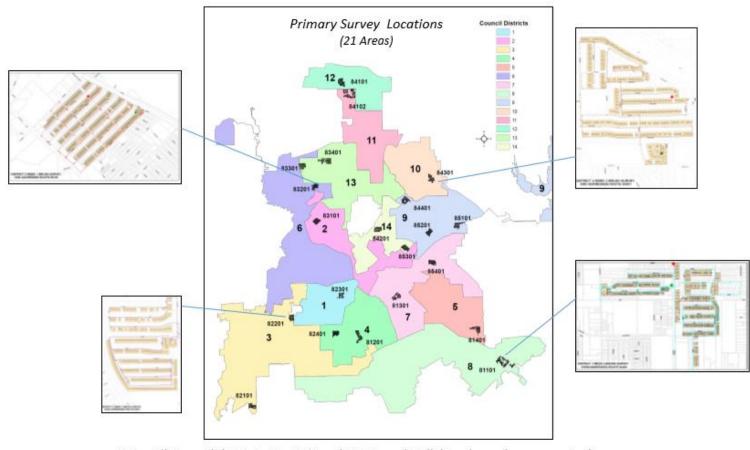

Secondary July Field Survey Results

- The July survey data correlated <u>fairly well</u> to primary survey
 - ➤ Differences appear mainly seasonal
- There were some slight differences among areas related to:
 - ➤ Utilization rates (16% vs. 27%)
 - ➤ Brush and yard waste percentage lower (48% vs. 55%)
 - ➤ Non-brush percentage higher (23% vs. 17%)

Primary Survey Map

Note: All Council districts, Sanitation districts and Bulk/Brush weeks represented

Secondary Survey (July)
