BACKGROUND

The cooperative purchasing agreement will provide for the application and hosting services, integration support and ongoing technical, and maintenance support of an electronic information notification system for the Department of Information and Technology Services. This system is capable of meeting the varied needs for the Department of Information and Technology Services.

The agreement will allow for the ongoing creation and maintenance of digital documents as well as a publication tool that incorporates City data in actionable maps of various kinds that are integral to City publication and web pages. This application is a part of the City's continuous commitment to offer residents, business owners and stakeholders, digital images that make government more 'Open' and responsive.

This fully automated, on-demand publication solution provides city departments access via links on the City's website. It will allow the City to grow and manage a distribution network which can notify users directly about City events and services, such as crime watch groups, curfew changes, related updates, and outreach programs.

The OMNIA Partners cooperative agreement is authorized by chapter 791 of the Texas Government Code and Subchapter F, Chapter 271, Texas Local Government Code. Section 271.102 of the Texas local Government Code which authorizes a local government to participate in a Cooperative Purchasing Program with another local government or a local cooperative organization.

On November 10, 2015, the City Council authorized a living wage policy that requires contractors to pay their employees a "living wage" rate as established annually by the Massachusetts Institute of Technology Living Wage Calculator for Dallas County by Resolution No. 15-2141.
