**SUBJECT**

Authorize an amendment to the City of Dallas Comprehensive Housing Policy, previously approved on May 9, 2018, by Resolution No. 18-0704, as amended, to amend the Targeted Rehabilitation Program to (1) remove property insurance from property eligibility requirements; (2) allow applicants to reapply to receive additional assistance for property previously assisted with funds through the Targeted Rehabilitation Program; and (3) revise the funding cap amount from \$10,000.00 to \$20,000.00 for the Targeted Rehabilitation Program - West Dallas Sub-Program Module - Financing: No cost consideration to the City

**BACKGROUND**

The Comprehensive Housing Policy (CHP) has three main goals: (1) create and maintain available and affordable housing throughout Dallas; (2) promote greater fair housing choices; and (3) overcome patterns of segregation and concentrations of poverty through incentives and

requirements.

The Targeted Rehabilitation Program (TRP) is an umbrella program intended to preserve affordable housing and to serve all households eligible for support in the CHP. Each module will identify applicant qualifications and proposed benefits based on the issue the individual module seeks to address. Benefits and requirements, such as the amount of financial assistance and affordability periods, will vary based on funding requirements, community feedback, and funding source.

The CHP currently requires a homeowner to maintain standard property insurance on the property to meet property eligibility requirements for the TRP. Further, the CHP currently does not allow a property previously assisted through the TRP to receive additional funding within the period of affordability. Lastly, for the Targeted Rehabilitation Program's West Dallas Sub-Program Module, the CHP currently sets the maximum assistance amount at \$10,000.00.

To increase access to the TRP, the proposed amendments reduce barriers to program eligibility by removing the property insurance requirement. To promote greater impact on each property assisted through the West Dallas Sub-Program Module, the proposed amendments increase the maximum assistance amount to \$20,000.00 per property as the assistance need per household often exceeds \$10,000.00. The proposed amendments also allow for applicants previously assisted through the program to reapply for assistance up to the maximum assistance amount for the applicable Sub-Program Module when combined with the amount of prior assistance received (e.g., maximum amount of \$20,000.00 for the West Dallas Sub-Program Module and \$50,000.00 for the Tenth Street Historic District Sub-Program Module). Although the proposed amendments will decrease the number of households to be served in the West Dallas Sub-Program Module, they will allow for the program to address needed repairs on each property to a greater extent and reduce barriers to program eligibility.
