BACKGROUND

This action does not encumber funds; the purpose of a service contract is to establish firm pricing for services, for a specific term, which are ordered on an as needed basis.

This service contract will provide for a cost of service/revenue study of fees supporting programs/services provided by General Fund departments - Management Services. The City's Financial Management Performance Criteria requires a review once every four years of selected fees and charges to determine to what extent the full cost of associated services are recovered by revenues and to identify new revenues/fee sources and/or fee increases.

A five-member committee from the following departments reviewed and evaluated the qualifications:

- Budget and Management Services (2)
- Department of Code Compliance (1)
- Fire-Rescue Department (1)
- Office of Procurement Services (1)*

*The Office of Procurement Services evaluated cost and local preference, if applicable.

The committee selected the successful respondent on the basis of demonstrated competence and qualifications under the following criteria:

- Experience 35 points
- Approach 30 points
- Cost 30 points
- Local Preference 5 points

As part of the solicitation process and in an effort to increase competition, the Office of Procurement Services used its procurement system to send out email notifications to vendors registered under relevant commodity codes. To further increase competition, the Office of Procurement Services uses historical solicitation information, the Internet, and vendor contact information obtained from user departments to contact additional vendors.

On November 10, 2015, the City Council authorized a living wage policy that requires contractors to pay their employees a “living wage” rate as established annually by the Massachusetts Institute of Technology Living Wage Calculator for Dallas County by Resolution No. 15-2141. The calculated living wage during the solicitation process of this contract is \$17.82; the selected vendor meets this requirement.
