SUBJECT

Authorize an amendment to Resolution No. 20-1431, previously approved on September 23, 2020, to increase funding for the subrecipient agreement with Services of Hope Entities, Inc., in the amount of \$194,451.50, from \$194,451.50 to \$388,903.00, and authorize the City Manager to execute all documents necessary to implement the making food accessible services project, including amendments - Not to exceed \$194,451.50 - Financing: U.S. Department of Treasury - Coronavirus Relief Funds (This item was held under advisement on September 23, 2020)

BACKGROUND

The City of Dallas is the 9th largest city in the United States and the third largest in Texas. While 20% of Dallas County faces food insecurity, specifically in the city of Dallas, nearly 38% of the population lives in a food desert. The COVID-19 pandemic and resulting economic downturn have exacerbated these disparities, creating increased demand for local food pantries and distribution sites. Many residents of our City are experiencing job loss, pay loss, added expenses and other issues making it

difficult to afford healthy and nutritious foods. Additionally, individuals who may be diagnosed with COVID-19 or quarantined due to exposure, may find themselves too sick or otherwise unable to travel and purchase food.

In order to address these needs, the City of Dallas allocated a portion of funding from the CARES Coronavirus Relief Funding to support local nonprofit organizations in the implementation of programming to address food insecurity and support access to food. Services were sought to support 1) Contactless grocery pickup for vulnerable populations, including food distribution, grocery pick/up and/or delivery for clients, or similar services that enable access and 2) Delivery of fresh food to COVID-19 confirmed patients while in isolation.

The City issued a Request for Applications (RFA) to solicit potential subrecipients to administer these programs. The RFA stated that target populations should include the below listed and that Applicants should seek to serve individuals living in communities of concentrated poverty:

- All services should target low income individuals via individual client eligibility, client population eligibility and/or service site or location

- Individuals living in communities with high prevalence of COVID-19

- Individuals living in identified food deserts

- Individuals who are part of populations identified by the 2016/2017 Mayors Task Force on Poverty

- Individuals living in communities of concentrated poverty, defined as 40% or more residents living in poverty

- Individuals identified as higher risk by COVID Risk Impact Assessment

- For # 2, individuals with a COVID-19 diagnosis who are members of the above-identified targets and/or who are low income, experiencing transportation challenges (this can be due to COVID-19) and living in any Dallas zip code

On September 23, 2020, City Council authorized five subrecipient agreements for making food accessible services. Among the authorized agreements was a contract with Services of Hope Entities, Inc. in the amount of \$194,451.50, representing half of the original recommended award amount. At Council direction, the remaining \$194,451.50 was held under advisement for consideration on October 13, 2020 so that staff could provide City Council members with additional information about the agreement.

SUBRECIPIENT SELECTION PROCESS

A three-member panel reviewed and scored the applications representing the below departments:

- Office of Community Care (1)
- Office of Innovation (1)
- Office of Planning and Urban Design (1)

Applications were evaluated according to the below points allocations. Within the below allocations, specific points in the scoring were allocated to the organization’s demonstrated capacity to expend funding and deliver services in a timely manner and organization’s demonstrated ability to reach and serve identified target populations.

Organizational Capacity	Program and Budget
40 pts	60 pts.

As part of the selection process and in an effort to increase the number of applications, the Office of Community Care worked with the Office of Procurement Services (OPS) to send out 365 email invitations to vendors, including nonprofits, registered under respective commodities using the OPS procurement system.

Due to the expenditure deadlines related to the CARES Act funding, the RFA was posted for approximately two weeks. A total of 11 submissions were received.

The City received the following proposals from the solicitation:

1. Abounding Prosperity, Inc.
2. Citizens Development Center dba Achieve
