File #: 24-328, Version: 1

STRATEGIC PRIORITY: Government Performance & Financial Management
AGENDA DATE: February 14, 2024
COUNCIL DISTRICT(S): All
DEPARTMENT: Office of Procurement Services
EXECUTIVE: Jack Ireland

SUBJECT

Authorize a two-year master agreement for the purchase of liquid dipotassium orthophosphate for the Water Utilities Department - Carus LLC, lowest responsible bidder of two - Estimated amount of \$5,224,827.60 - Financing: Dallas Water Utilities Fund

BACKGROUND

This action does not encumber funds; the purpose of a master agreement is to establish firm pricing for goods, for a specific term, which are ordered on an as needed basis according to annual budgetary appropriations. The estimated amount is intended as guidance rather than a cap on spending under the agreement, so that actual need combined with the amount budgeted will determine the amount spent under this agreement.

This master agreement will provide for the purchase of liquid dipotassium orthophosphate for the Water Utilities Department (DWU). Liquid dipotassium orthophosphate is a National Sanitation Foundation certified chemical used for corrosion inhibitor for drinking water systems. DWU uses the chemical to reduce the effects of corrosion and maintenance on the water system infrastructure. DWU has been using this corrosion inhibitor at all water treatment plants since 2010.

As part of the solicitation process and in an effort to increase competition, the Office of Procurement Services used its procurement system to send out email notifications to vendors registered under relevant commodity codes. To further increase competition, the Office of Procurement Services uses historical solicitation information, the Internet, and vendor contact information obtained from user departments to contact additional vendors.
