AGENDA DATE: May 27, 2020

COUNCIL DISTRICT(S): All

DEPARTMENT: Office of Procurement Services

EXECUTIVE: Elizabeth Reich

SUBJECT

Authorize a five-year service price agreement to provide a cloud-based open data portal solution for the Department of Information and Technology Services - Tyler Technologies, Inc., most advantageous proposer of three - Estimated amount of \$446,186 - Financing: Data Services Fund

BACKGROUND

This action does not encumber funds; the purpose of a service price agreement is to establish firm pricing for services, for a specific term, which are ordered on an as needed basis according to annual budgetary appropriations. The estimated amount is intended as guidance rather than a cap on spending under the agreement, so that actual need combined with the amount budgeted will determine the amount spent under this agreement.

This service price agreement will provide a cloud-based solution to make data readily available to users and improve the accessibility of public information, and to enhance coordination and efficiencies among departments, partner organizations, and residents. This agreement will also provide maintenance and support which includes technical support, upgrades to current releases, and use of the products.

A five-member committee from the following departments reviewed and evaluated the qualifications:

- Department of Equipment & Fleet Management (1)
- Department of Information and Technology Services (1)
- Water Utilities Department (1)
- Office of Business Diversity (1)*
- Office of Procurement Services (1)*

*The Office of Procurement Services only evaluated cost and the Office of Business Diversity only evaluated the Business Inclusion and Development Plan.

The committee selected the successful respondents on the basis of demonstrated competence and qualifications under the following criteria:

- Cost 30 points
- Technical match 30 points
- Functional match 15 points
- Business Inclusion and Development Plan 15 points
- Capabilities and expertise 10 points

The Office of Procurement Services used its procurement system to send out email notifications to vendors registered under relevant commodity codes. To further increase competition, the Office of Procurement Services uses historical solicitation information, the Internet, and vendor contact information obtained from user departments to contact additional vendors. Additionally, in an effort to secure more competition, the Office of Business Diversity sent notifications to chambers of commerce and advocacy groups to ensure maximum vendor outreach.

On November 10, 2015, the City Council authorized a living wage policy that requires contractors to pay their employees a “living wage” rate as established annually by the Massachusetts Institute of Technology Living Wage Calculator for Dallas County by Resolution No. 15-2141. The current calculated living wage during the solicitation process of this contract is \$11.71; the selected vendor meets this requirement.
