STRATEGIC PRIORITY: Government Performance and Financial Management

AGENDA DATE: September 22, 2021

COUNCIL DISTRICT(S): All

DEPARTMENT: Office of Procurement Services

EXECUTIVE: Elizabeth Reich

SUBJECT

Authorize a three-year service contract for software subscription, maintenance, and support of an existing security and threat management system for the Department of Information and Technology Services - Accudata Systems, Inc., most advantageous proposer of four - Not to exceed \$410,531.36 - Financing: Data Services Fund (subject to annual appropriations)

BACKGROUND

This action does not encumber funds; the purpose of a service contract is to establish firm pricing for services, for a specific term, which are ordered on an as needed basis.

This service contract will allow for software subscription, maintenance, and support of an existing security threat management system. This system enables the City to manage threats from both the external internet and internal intranet websites. The system detects and filters various types of viruses, malware, and advanced persistent threats to the City's information systems.

The system reduces cyber threats such as:

- Sophisticated global cyberthreats
- Transmittal and disclosure of electronically protected health information
- Access to unauthorized and restricted sites
- e-commerce threats associated with City's business to business relationships such as electronic payments and electronic wire transfers between the City and vendors

This contract will enhance the City's ability to monitor, manage, and respond to various types of cybersecurity threats, reduce risks posed by such threats, and reduce vulnerabilities to the City's information systems. Due to the continued growth of cyberthreats and their increasing sophistication, this security and threat management system is necessary to ensure the confidentiality, integrity, and availability of the City's information systems and assets. Furthermore, the contract will provide technical maintenance and support, including upgrades to current software releases, and patches.

The system reviews the contents of encrypted internet information to ensure there are no hidden threats, reviews inbound and outbound internet traffic, and intercepting and blocking viruses, and spam that ultimately provides protection to systems including, but not limited to:

- Provides compliance with the Children's Internet Protection Act by blocking or filtering internet access to pictures that are obscene, child pornography, or harmful to minors (for computers that are accessed by minors)
- Criminal Justice Information Systems
- City's financial systems
- Payroll systems
- Internet usage
- Love Field systems
- Critical infrastructure systems
- General user's computer systems
- Production documents that City staff create daily

A four-member committee from the following departments reviewed and evaluated the qualifications:

- | | |
|---|------|
| • Department of Information and Technology Services | (1) |
| • Office of Data Analytics & Business Intelligence | (1) |
| • Water Utilities Department | (1) |
| • Office of Procurement Services | (1)* |

*The Office of Procurement Services evaluated cost and local preference, if applicable.

The committee selected the successful respondent on the basis of demonstrated competence and qualifications under the following criteria:

- | | |
|----------------------------|-----------|
| • Cost | 30 points |
| • Technical match | 30 points |
| • Expertise | 15 points |
| • Functional match | 15 points |
| • Training | 5 points |
| • Local Preference Program | 5 points |

As part of the solicitation process and in an effort to increase competition, the Office of Procurement Services used its procurement system to send out email notifications to vendors registered under relevant commodity codes. To further increase competition, the Office of Procurement Services uses historical solicitation information, the Internet, and vendor contact information obtained from user departments to contact additional vendors.

On November 10, 2015, the City Council authorized a living wage policy that requires contractors to pay their employees a “living wage” rate as established annually by the Massachusetts Institute of Technology Living Wage Calculator for Dallas County by Resolution No. 15-2141. The current calculated living wage during the solicitation process of this contract is \$12.38; the selected vendor meets this requirement.

PRIOR ACTION/REVIEW (COUNCIL, BOARDS, COMMISSIONS)

On April 26, 2017, City Council authorized an acquisition contract for the purchase, implementation, configuration, and user training of a Forcepoint Triton APX security and threat management system; and a three-year service contract, with two one-year renewal options, for software subscription, maintenance, and support of the Forcepoint Triton APX security and threat management system with Accudata Systems, Inc. by Resolution No. 17-0675.

On May 13, 2020, City Council authorized Supplemental Agreement No. 1 to exercise the first of two, one-year renewal options to the service contract with Accudata Systems, Inc. for software subscription, maintenance, and support of the Forcepoint Triton APX security and threat management system by Resolution No. 20-0744.

FISCAL INFORMATION

Fund	FY 2021	FY 2022	Future Years
Data Services Fund	\$162,476.90	\$124,943.08	\$123,111.38
