#### <u>SUBJECT</u>

Authorize a five-year service contract for website design, hosting, support, content management, user optimization services, and integration with the current Integrated Library System platforms for the Library - BiblioCommons, Corp., most advantageous proposer of seventeen - Not to exceed \$1,076,096.89 - Financing: General Fund (subject to annual appropriations)

#### BACKGROUND

This action does not encumber funds; the purpose of a service contract is to establish firm pricing for services, for a specific term, which are ordered on an as needed basis.

This service contract will provide for website design, hosting, support, content management, user optimization services, and integration with the current Integrated Library System (ILS) platforms for the Library.

The Library's (DPL) public website provides a digital gateway to library services, programs, research, and collections. Though the DPL has been looking to update the website for some time, having the

chance to do so after an event, such as COVID-19, facilitated a new set of standards and a new way of thinking about online platforms and services. This project will result in a website that promotes the dynamic and evolving services DPL offers, provide staff tools to keep the website up to date and inviting, while providing an easy, user-focused experience.

The current website being large and complex, makes it difficult to navigate through the site and easily find content. Though much of what can be accessed from the current website appears to be one platform, it is delivered via multiple platforms and vendors. The current integration of these systems is severely lacking, creating a fragmented and confusing user experience. Considering the website has become a lifeline and a first point of contact for many DPL customers, it is critical for the site to properly integrate with library platforms, while also providing easy navigation and searchability.

As March 2020 came to a close, DPL staff and customers became increasingly familiar with and curious about the Library's website offerings and limitations. To keep pace with the growth of digital information access, DPL is looking for updated and forward-thinking information architecture, user experience, and content strategy. The vision is to greatly simplify discoverability and provide the optimal experience for customers, while having the proper tools for content management and continued growth.

A four-member committee from the following departments reviewed and evaluated the qualifications:

٠	Department of Information and Technology Services	(1)
٠	Library	(2)
٠	Office of Procurement Services	(1)*

\*The Office of Procurement Services evaluated cost and local preference, if applicable.

The committee selected the successful respondent on the basis of demonstrated competence and qualifications under the following criteria:

٠	Experience	35 points
•	Cost	35 points

- Cost 35 points
   Approach 20 points
- Approach 30 points

As part of the solicitation process and in an effort to increase competition, the Office of Procurement Services used its procurement system to send out email notifications to vendors registered under relevant commodity codes. To further increase competition, the Office of Procurement Services uses historical solicitation information, the Internet, and vendor contact information obtained from user departments to contact additional vendors.

On November 10, 2015, the City Council authorized a living wage policy that requires contractors to pay their employees a "living wage" rate as established annually by the Massachusetts Institute of Technology Living Wage Calculator for Dallas County by Resolution No. 15-2141. The current calculated living wage during the solicitation process of this contract is \$12.38; the selected vendor meets this requirement.

### PRIOR ACTION/REVIEW (COUNCIL, BOARDS, COMMISSIONS)

This item has no prior action.

#### FISCAL INFORMATION

Fund	FY 2021	FY 2022	Future Years
General Fund	\$250,358.88	\$197,368.48	\$628,369.53

#### M/WBE INFORMATION

In accordance with the City's Business Inclusion and Development Policy adopted on September 23, 2020, by Resolution No. 20-1430, as amended, the M/WBE participation on this contract is as follows:

Contract Amount	Procurement Category	M/WBE Goal	M/WBE %	M/WBE \$	
\$1,076,096.89 Other Services N/A N/A N/A					
• The Business Inclusion and Development Policy does not apply to Other Service contracts.					
• BiblioCommons, Corp Non-local; Workforce - 0.00% Local
