SUBJECT

Authorize **(1)** the Second Amendment to the Project Specific Agreement with Dallas County Public Works for the design and construction of paving and drainage improvements on Camp Wisdom Road from Carrier Parkway to Farm-to-Market 1382 to increase the estimated total project cost from \$26,641,056.00 to \$29,485,489.00; and **(2)** payment to Dallas County Public Works for the City's share of additional project costs for paving and drainage improvements on Camp Wisdom Road - Not to exceed \$128,804.00, from \$1,300,000.00 to \$1,428,804.00 - Financing: Street and Transportation (A) Fund (2017 General Obligation Bond Fund)

BACKGROUND

The Camp Wisdom Road Project from Carrier Parkway to Farm-to-Market (FM) 1382 is a partnership project between the City of Dallas, Dallas County, and the City of Grand Prairie. Dallas County Public Works is the lead agency to administer the design and construction of the Camp Wisdom Road

Project. One third of the project limits, including a bridge, is located within the city of Dallas.

A Project Specific Agreement (PSA) with Dallas County Public Works for the design and construction of this project was authorized by the City Council on June 14, 2017. This action will authorize the Second Amendment to the PSA with Dallas County Public Works for the design and construction of paving and drainage improvements on Camp Wisdom Road from Carrier Parkway to FM 1382 to increase the estimated total project cost from \$26,641,056.00 to \$29,485,489.00 and payment to Dallas County Public Works for the City's share of additional project costs for paving and drainage improvements in an amount not to exceed \$128,804.00, from \$1,300,000.00 to \$1,428,804.00. The remaining project cost will come from other sources of funds, including \$5,478,804.00 from the City of Grand Prairie, \$12,129,942.00 from Dallas County Public Works, and \$10,447,939.00 from the Texas Department of Transportation (TxDOT).

The Camp Wisdom Road Project spans from approximately 1,700 feet west of Carrier Parkway in the City of Grand Prairie to FM 1382 in the City of Dallas and includes approximately two miles of street reconstruction. The City of Grand Prairie portion includes approximately 1.3 miles west of the Camp Wisdom Bridge over Mountain Creek, while the City of Dallas portion includes approximately 0.7 miles east of this same bridge. The project will replace and raise the existing two-lane asphalt roadway above the 100-year flood elevation with a four-lane concrete roadway that includes curb and gutter, drainage system improvements, a new bridge over Mountain Creek, street lighting and a 13-foot-wide two-way cycle track along the south side of the roadway.

If this action is delayed or deferred, the planned improvements with the Camp Wisdom Road project may be placed on hold.
