## **BACKGROUND**

The City of Dallas (the “City”) serves as the hub of economic activity for the fastest growing region in the country, yet past disinvestment in historically disadvantaged communities has created disparities in economic opportunities and outcomes for persons within these communities, particularly in southern Dallas. Accordingly, City Council unanimously adopted the Economic Development Policy in May 2021, to foster continued economic growth through an equitable lens to increase inclusive prosperity in the City. Over the past 18 months, City staff has revised the Economic Development Policy to clarify policy, align the action items with ongoing plans, programs, policies, and other City initiatives, designate lead departments to implement the action items, and consolidate and prioritize action items. The revised Economic Development Policy (the “Policy”) is attached hereto as **Exhibit A**.

In furtherance of the Policy, the City proposes a robust, equity-centric approach to economic development, and at the forefront of that approach, has drafted a new Economic Development Incentive Policy (attached as **Exhibit B**) (“Incentive Policy”). As the City’s current incentive policies were developed prior to adoption of the Policy, the Incentive Policy aligns the City’s economic development incentive toolbox with Policy goals to incentivize and support development throughout the City with a focus on southern Dallas and other underinvested areas.

To facilitate tax abatements under the Incentive Policy, this item will authorize the creation of Neighborhood Empowerment Zone (“NEZ”) No. 21 to align with the state designated Enterprise Zones in the city as depicted on the Target Area map attached as **Exhibit C** in accordance with Texas Local Government Code, Chapter 378 (the “Act”).

Further, this item authorizes the transfer of the administration and management of the programmatic elements, and the related funding, of NEZ Nos. 9 and 10 from the Office of Economic Development (“OED”) to the Small Business Center (“SBC”). NEZ Nos. 9 and 10 were created in 2019 by Resolution Nos. 19-0723 and 19-0948, respectively. These programs allow more flexibility to the incentive requirements for projects located within these zones, to spur economic development where additional economic development tools could prove beneficial to commercial properties and small businesses. With the creation of the Small Business Center, these activities align with the SBC’s core mission and transfer program administration and funding to allow SBC to assist small businesses located within or relocating to the zones.

Finally, to facilitate the implementation of the Infrastructure Investment Fund and Predevelopment Assistance Program, this item establishes the Infrastructure Investment Fund and transfers \$100,000.00 per year for two years (FY 2022-23 and FY 2023-24) from the City’s existing Public/Private Partnership Fund to the newly created Predevelopment Assistance Program.
