STRATEGIC PRIORITY: Government Performance & Financial Management

AGENDA DATE: January 11, 2023

COUNCIL DISTRICT(S): All

DEPARTMENT: Office of Procurement Services

EXECUTIVE: Jack Ireland

SUBJECT

Authorize a five-year service price agreement for hot water and steam boilers maintenance and parts for the Water Utilities Department - Denali Construction Services, most advantageous proposer of three - Estimated amount of \$137,755 - Financing: Dallas Water Utilities Fund (subject to annual appropriations)

BACKGROUND

This action does not encumber funds; the purpose of a service price agreement is to establish firm pricing for services, for a specific term, which are ordered on an as needed basis according to annual budgetary appropriations. The estimated amount is intended as guidance rather than a cap on spending under the agreement, so that actual need combined with the amount budgeted will determine the amount spent under this agreement.

This service price agreement will provide for hot water and steam boilers maintenance and parts for the Water Utilities Department. The processing of the residuals at the wastewater treatment plant involves maintaining the temperature at a minimum of 95 degrees Fahrenheit. In order to operate the

residual equipment at their optimum performance, the boilers must maintain the internal temperature at a range of 95 to 98 degrees, 24 hours a day. Additionally, the boilers are also used to provide heat for the various offices and process buildings at the wastewater treatment plant. This service price agreement will ensure the equipment will remain operational at an optimum level.

A four-member committee from the following departments reviewed and evaluated the qualifications:

- Building Services Department (1)
- Department of Equipment Fleet Management (1)
- Water Utilities Department (1)
- Office of Procurement Services (1)*

*The Office of Procurement Services evaluated cost and local preference, if applicable.

The committee selected the successful respondent on the basis of demonstrated competence and qualifications under the following criteria:

- Capabilities and experience 35 points
- Approach 30 points
- Cost 30 points
- Local Preference 5 points

As part of the solicitation process and in an effort to increase competition, the Office of Procurement Services used its procurement system to send out email notifications to vendors registered under relevant commodity codes. To further increase competition, the Office of Procurement Services uses historical solicitation information, the Internet, and vendor contact information obtained from user departments to contact additional vendors.

On November 10, 2015, the City Council authorized a living wage policy that requires contractors to pay their employees a “living wage” rate as established annually by the Massachusetts Institute of Technology Living Wage Calculator for Dallas County by Resolution No. 15-2141. The calculated living wage during the solicitation process of this contract is \$17.82; the selected vendor meets this requirement.

PRIOR ACTION/REVIEW (COUNCIL, BOARDS, COMMISSIONS)

This item has no prior action.
