Additional support coverage includes software version upgrades, patches, and bug fixes as well as security alerts and other information that enables ITS staff to proactively provide the best possible technical services to our customers.

City systems utilizing Oracle databases include the Dallas Water Utilities billing system, CGI Advantage Financial System, and the Police records management system.

On November 10, 2015, the City Council authorized a living wage policy that requires contractors to pay their employees a "living wage" rate as established annually by the Massachusetts Institute of Technology Living Wage Calculator for Dallas County by Resolution No. 15-2141.
