### **SUBJECT**

A resolution ratifying the City Manager's execution of an emergency service price agreement with Future Com, Ltd. for upgrades to the City's network infrastructure for the Rental and Mortgage Assistance Program and the Small Business Continuity Fund loan application operations in response to COVID-19 - Estimated amount of \$376,535.10 - Financing: [U.S. Department of Treasury - Coronavirus Relief Funds](#)

### **BACKGROUND**

This action does not encumber funds; the purpose of a service price agreement is to establish firm pricing for services, for a specific term, which are ordered on an as needed basis according to annual budgetary appropriations. The estimated amount is intended as guidance rather than a cap on spending under the agreement, so that actual need combined with the amount budgeted will determine the amount spent under this agreement.

This agreement will provide for the emergency purchase of load balancers that will provide necessary upgrades to the City's network infrastructure to support the anticipated increased traffic to the City's website as a result of the Rental and Mortgage Assistance Program and the Small Business Continuity Fund loan application link being housed on the site in response to COVID-19.

This service was procured utilizing emergency procurement guidelines which allow for the procurement of goods and services where routine bidding requirements cannot be followed. Emergency procurements are exempt from competitive bidding under the City Charter and State Law.
