**File #:** 21-323, **Version:** 1

---

**STRATEGIC PRIORITY:** Mobility Solutions, Infrastructure, and Sustainability  
**AGENDA DATE:** April 14, 2021  
**COUNCIL DISTRICT(S):** All, Outside City Limits  
**DEPARTMENT:** Water Utilities Department  
**EXECUTIVE:** Majed Al-Ghafry

---

### **SUBJECT**

Authorize **(1)** the acceptance of a grant from the Federal Emergency Management Agency through the State of Texas Commission on Environmental Quality (TCEQ) for the High Hazard Potential Dams Rehabilitation Grant (Grant No. EMW-2020-GR-00190-S01, CFDA No. 97.041) in the amount of \$138,381.00 to complete spillway capacity alternatives analysis for Lake Cliff Dam, Hatfield Branch Dam, and Lake Simonds Dam, and seepage design for Lake Cliff Dam within an estimated seven months of the execution of a grant agreement with TCEQ; **(2)** the establishment of appropriations in an amount not to exceed \$23,224.00 in the High Hazard Potential Dam Hatfield Branch Fund; **(3)** the establishment of appropriations in an amount not to exceed \$23,224.00 in the High Hazard Potential Dam Lake Simonds Fund; **(4)** the establishment of appropriations in an amount not to exceed \$91,933.00 in the High Hazard Potential Dams Lake Cliff Fund; **(5)** the receipt and deposit of funds in an amount not to exceed \$23,224.00 in the High Hazard Potential Dam Hatfield Branch Fund; **(6)** the receipt and deposit of funds in an amount not to exceed \$23,224.00 in the High Hazard Potential Dam Lake Simonds Fund; **(7)** the receipt and deposit of funds in an amount not to exceed \$91,933.00 in the High Hazard Potential Dams Lake Cliff Fund; **(8)** a required local match in the amount of \$62,007.00 from the Storm Drainage Management Capital Construction Fund and \$12,505.00 from the Park and Recreation Facilities Fund; and **(9)** the execution of the grant agreement with TCEQ and all terms, conditions, and documents required by the agreement - Not to exceed \$138,381.00 - Financing: High Hazard Potential Dam Hatfield Branch Fund (\$23,224.00), High Hazard Potential Dam Lake Simonds Fund (\$23,224.00), and High Hazard Potential Dams Lake Cliff Fund (\$91,933.00)

### **BACKGROUND**

The City of Dallas (Dallas Water Utilities and Park & Recreation Department) owns numerous dams and levees, which impound water for flood control, water supply, and recreation purposes. The Texas Commission on Environmental Quality (TCEQ), the National Dam Safety Act, and the Federal Emergency Management Agency (FEMA) have requirements and recommendations for dam and levee safety inspections, operations and maintenance programs, and Emergency Action Plans (EAPs).

Twenty-four dams owned by the City of Dallas have been identified as subject to at least a part of these requirements. Eleven of those dams are classified as significant and high hazard dams by TCEQ.

To meet these regulatory requirements, the City of Dallas plans to award a professional services contract with Freese and Nichols, Inc. for engineering services involving eleven significant and high hazard dams owned by the City of Dallas. The contract will also include distinct engineering efforts at Lake Cliff Dam, Hatfield Branch Dam, Cherrybrook Branch Dam, and Lake Simonds Dam. Those services include an evaluation of alternatives for increasing spillway capacity to meet updated TCEQ design flood requirements, and drainage design to address the seepage at Lake Cliff Dam. The spillway capacity analysis will help ensure regulatory compliance and help guide future capital improvements for these dams. The seepage design will help ensure the safety of Lake Cliff Dam.

The City has received a High Hazard Potential Dams Rehabilitation Grant award from FEMA passed through TCEQ to fund 65% of the costs associated with the spillway capacity analysis for Lake Cliff Dam, Hatfield Branch Dam, and Lake Simonds Dam, and the seepage design for Lake Cliff Dam. A local match of 35% is required and will be funded by Dallas Water Utilities and the Park & Recreation Department. This grant program supports technical, planning, and design for dams that have been classified as “high hazard potential” by the States dam safety agency TCEQ.

#### **PRIOR ACTION/REVIEW (COUNCIL, BOARDS, COMMISSIONS)**

This item has no prior action.

#### **FISCAL INFORMATION**

Fund	FY 2021	FY 2022	Future Years
High Hazard Potential Dam Hatfield Branch Fund	\$ 23,224.00	\$0.00	\$0.00
High Hazard Potential Dam Lake Simonds Fund	\$ 23,224.00	\$0.00	\$0.00
High Hazard Potential Dams Lake Cliff Fund	\$ 91,933.00	\$0.00	\$0.00
Total	\$ 138,381.00	\$0.00	\$0.00
