BACKGROUND

This action does not encumber funds; the purpose of a master agreement is to establish firm pricing for goods, for a specific term, which are ordered on an as needed basis according to annual budgetary appropriations. The estimated amount is intended as guidance rather than a cap on spending under the agreement, so that actual need combined with the amount budgeted will determine the amount spent under this agreement. We anticipate the following City departments will use this agreement:

- Department of Equipment and Fleet Management
- Department of Public Works
- Department of Sanitation Services
- Fire-Rescue Department
- Park & Recreation Department
- Police Department
- Water Utilities Department

This master agreement will provide for the purchase of replacement tires, tubes, and flaps for approximately 5,000 City service, public safety vehicles, tractors, and heavy equipment which will consist of 200 different tire sizes currently used by City departments.

The ratification amount is needed to ensure the current agreement has sufficient capacity to ensure City fleet vehicles and equipment can be maintained and remain in service until this new agreement is approved.

As part of the solicitation process and in an effort to increase competition, the Office of Procurement Services used its procurement system to send out email notifications to vendors registered under relevant commodity codes. To further increase competition, the Office of Procurement Services uses historical solicitation information, the Internet, and vendor contact information obtained from user departments to contact additional vendors.
