### **BACKGROUND**

Increases in internet-based crimes against children continue to be a serious concern across the nation and within the city of Dallas. These offenses pertain to children ranging in age from newborn to 17 years old who are victims of internet and/or technology facilitated crimes. The State of Texas Internet Crimes Against Children grant allows the City to supplement current efforts by funding staff to investigate and research these crimes. The grant funded positions are part of a larger team working together to solve and eliminate internet crimes and trafficking against children.

The 2021-22 State of Texas Internet Crimes Against Children Grant will provide \$403,138.57 to enhance the response of the Dallas Crimes Against Children Task Force in the area of prevention, investigation, and prosecution of computer-facilitated systems and other technology. Staff are responsible for the investigation of cyber tips originating at National Center for Missing and Exploited Children, cell phone forensics, computer and electronic device preview and evidence analysis, suspect and witness interviews, surveillance operations, arrests, and other critical tasks. In FY21, staff assigned to this grant were able to investigate over 11,995 cyber tips, conduct 126 forensic exams, and made approximately 18 felony arrests for charges related to the sexual exploitation of children.
