

FILE NUMBER: Z-26-000016

DATE FILED: February 15, 2026

LOCATION: West line of Bonnie View Road, south of East 11th Street

COUNCIL DISTRICT: 4

SIZE OF REQUEST: 6,273 sq. ft.

CENSUS TRACT: 481130089002

APPLICANT/OWNER: Ali Javan-Javidan / D Lux Rentals, LLC

REQUEST: An application for TH-3(A) Townhouse District on property zoned R-5(A) Single Family District

SUMMARY: The purpose of the request is to allow the development of two new housing units on the lot.

STAFF RECOMMENDATION: Approval.

CPC RECOMMENDATION: Approval.

BACKGROUND INFORMATION:

- The area of request is currently zoned R-5(A) Single Family District. The property is currently undeveloped.
- The lot has frontage on Bonnie View Road.
- The applicant proposes to develop this property with a duplex.
- To accomplish this, they request a TH-3(A) Townhouse District.

Zoning History:

There have not been any zoning cases in the area within the past five years:

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing/Proposed ROW
Bonnie View Road	Local	-
East 11 th Street	Community Collector	60'

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not have a significant impact on the surrounding roadway system. Staff will continue reviewing engineering plans at permitting to ensure compliance with city standards.

Transit Access:

The following transit services are located within ½ mile of the site:

DART Rail:

Blue, Red

DART Bus Routes:

215, 217, 226

STAFF ANALYSIS:

Comprehensive Plan:

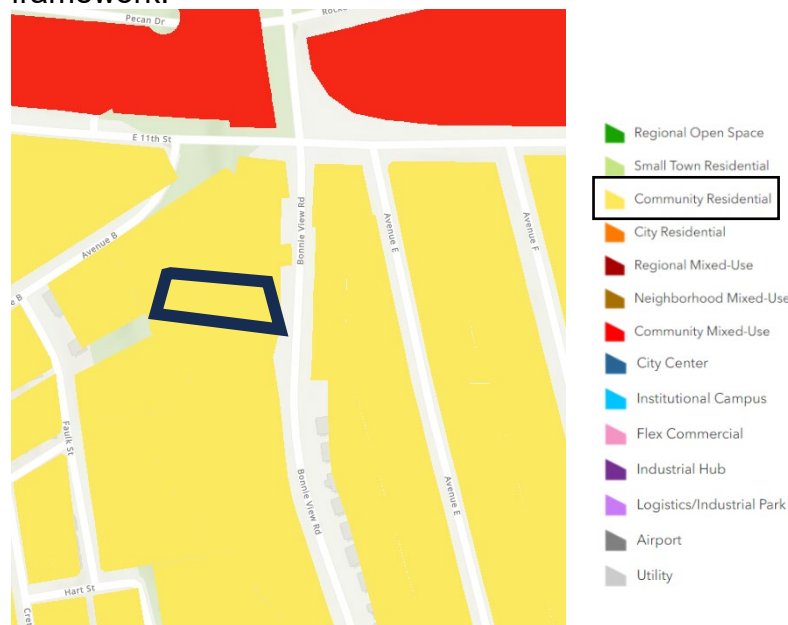

The forwardDallas 2.0! Comprehensive Plan was adopted by the City Council in September 2024. ForwardDallas 2.0 is a refreshed guide that takes into account how our City has evolved over the last two decades and how we should plan for what is on the horizon - from our continued economic growth to our long-term social vibrancy. ForwardDallas is a guidance plan; it is not a zoning document. This Comprehensive Plan outlines several goals and policies that can serve as a framework for assisting in evaluating the applicant's request.

The subject site is located within the Community Residential Placetype and within a Transit-Oriented Development (TOD) area:

Community Residential areas primarily accommodate single-family detached and single-family attached housing, supported by uses such as agriculture, public and private open space, multiplexes, apartments, mixed-use, commercial, office, civic/institutional, and utility facilities. These neighborhoods form the backbone of Dallas' housing landscape, integrating parks, schools, and community services. The plan emphasizes protecting and enhancing existing neighborhoods, fostering new walkable communities, and supporting revitalization where needed.

ForwardDallas 2.0 encourages higher-density residential development within a quarter-mile of DART stations to support transit accessibility and promote more efficient land use patterns. Given the site's location within a TOD area, the proposed townhouse zoning district, which allows for a duplex development, is consistent with the plan's policy direction to accommodate a broader range of housing types in transit-supportive locations.

The map below illustrates the site's location within the forwardDallas 2.0 placetype framework.

	Zoning	Land Use
Site	R-5(A) Single family district	Undeveloped
North	R-5(A) Single family district, NS(A) Neighborhood Service District	Undeveloped, Church
East	MF-1(A) Multifamily district	Multifamily
South	R-5(A) Single family district	Single family, Duplex
West	R-5(A) Single family district	Undeveloped

Land Use Compatibility:

The area of request is currently undeveloped. The site is surrounded by a mix of residential and institutional uses. Properties to the north are zoned NS(A) Neighborhood Service District and include undeveloped land and a church use. To the east, properties are zoned MF-1(A) Multifamily District and developed with multifamily uses. To the south and west, properties are zoned R-5(A) Single Family District and include a mix of single-family and duplex development, as well as undeveloped land.

The site is currently zoned R-5(A) Single Family District, which permits single-family residential development with a minimum lot size of 5,000 square feet. The applicant is requesting TH-3(A) Townhouse District to allow development of a duplex, which is not permitted under the current zoning.

Staff finds that the requested district and proposed development are compatible with the surrounding land uses. While the area is predominantly single-family, the presence of the NS(A) Neighborhood Service District immediately north of the site would make this an appropriate transition from residential to commercial uses. Access to transit further makes this site suitable for more density. Staff also notes the site is within walking distance of the area high school, which helps support additional homes on site. Furthermore, blockface continuity requirements would retain the character of the neighborhood while allowing development of a duplex structure. Setback requirements for duplex structures in the proposed TH-3(A) Townhouse District match the setback requirements of single-family structures in the R-5(A) Single Family District. As such, staff supports the requested change to a TH-3(A) Townhouse District.

Development Standards

The following is a comparison chart of the development standards for the current R-5(A) Single family district and the proposed TH-3(A) Townhouse District.

DISTRICT	SETBACKS		Height Stories	Density	Lot Coverage	Primary Use
	Front	Side/Rear				
Existing: R-5(A)	20'	Res: 5' Other: 10'	30'	5,000 sqft lot / no max du density	Res: 45% Nonres: 25%	Single family

Proposed TH-3(A)	0' ¹	SF: 0' ^{**} / 0' Duplex: 5'/10' Other: 10'/10'	36'	12 du / ac ²	Res: 60% site Nonres: 25% 80% per lot	Single family, duplex

¹ Due to blockface continuity requirements, a 20-foot front yard setback would apply to this lot.

² The TH-3(A) Townhouse District does not permit more than 12 dwelling units per acre. The existing lot size would result in a maximum of 1.72 dwelling units. However, per the Zoning Review Division, the minimum lot area for residential use controls over the maximum dwelling unit density. The minimum lot size for duplex structures is 6,000 square feet. As the lot is 6,273 square feet in size, this development would be permitted.

Land Use Comparison

Following is a comparison table showing differences in permitted uses between the existing and proposed zoning districts.

LEGEND

	Use prohibited
•	Use permitted by right
S	Use permitted by Specific Use Permit
D	Use permitted subject to Development Impact Review
R	Use permitted subject to Residential Adjacency Review
L	Use permitted by right as a limited use only.

Parking:

Any proposed use would require parking in accordance with Chapter 51A, as updated May 14, 2025. Townhouse development requires a minimum of one space per unit. Additional information on use-specific ratios can be found here: [Parking Reform Summary](#)

Landscaping:

Landscaping and tree preservation must be provided in accordance with the landscaping requirements in Article X, as amended.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the

Z-26-000016

strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is in an “H” MVA area.
