

FILE NUMBER: Z-26-000024 **DATE FILED:** March 4, 2026

LOCATION: Bounded by Allen Street, Cole Avenue, and Sneed Street

COUNCIL DISTRICT: 14

SIZE OF REQUEST: 0.593 acres **CENSUS TRACT:** 481130018002

OWNER/APPLICANT: Matt Segrest – AM Cole, LP / Alamo Manhattan, LLC.

REPRESENTATIVES: Suzan Kedron / Jackson Walker, LLP.

REQUEST: An application for **(1)** a new subdistrict for O-2 Office Subdistrict uses and **(2)** a resolution accepting the termination of Deed Restrictions [Z79-189], on property zoned O-2 Subdistrict within Planned Development No. 193, the Oak Lawn Special Purpose District.

SUMMARY: The purpose of the request is to allow a new hotel on the property.

STAFF RECOMMENDATION: **Approval**, subject to a development plan and staff's recommended conditions.

CPC RECOMMENDATION: **Approval**, subject to development plan and conditions.

BACKGROUND INFORMATION:

- The area of request is currently zoned O-2 Subdistrict within Planned Development 193 Oaklawn Special Purpose District with Deed Restrictions Z79-189 and is currently developed with an office building (approx. 25,831 SF in total size).
- An applicant is requesting termination of deed restrictions and an amendment to PD 193 Oaklawn Special Purpose District to create a new subdistrict to allow a new six-story hotel on the property.
- The current deed restrictions on the property – Z79-189 prohibits structures to exceed three floors of occupancy within the building or exceed 48 feet in height.
- The property has frontage on Cole Avenue, Allen Street and Sneed Street.
- The applicant is proposing a 15’ front setback along Cole Avenue, 10’ side setbacks for Allen Street and Sneed Street, and a 5’ yard setback for northwestern property line, facing Carlisle Street for the new Subdistrict in lieu of the O-2 Subdistrict requirement of a 20’ front setback and double frontage for the longest street.
- The applicant is proposing standards to the subdistrict, including a habitat garden, some building design standards, pedestrian sidewalks and paths, sidewalk amenities, and a trolley stop for this urban area.
- Therefore, the applicant is requesting an amendment to the PD for a new subdistrict and termination of existing deed restrictions.

Zoning History:

There has been one zoning case in the area within the last five years.

1. **Z223-114:** On November 8, 2023, the City Council approved an application for (1) a Planned Development District, and (2) a removal of the D Liquor Control Overlay on property zoned Planned Development District No. 9 with a D Liquor Control Overlay and a GR General Retail Subdistrict within Planned Development District No. 193, the Oak Lawn Special Purpose District on the east corner of Cedar Springs Road and Fairmount Street.

Thoroughfares/Street:

Thoroughfare/Street	Type	Existing/Proposed ROW
Cole Avenue	Local Street	--
Sneed Street	Local Street	--
Allen Street	MA- Minor Arterial	60'

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system. Staff will continue to review engineering plans at the time of permitting to comply with city standards.

Transit Access:

The following transit services located within ½ mile of the site:
 DART Routes:
 M-Line, 1, 103, 207

STAFF ANALYSIS

• **Comprehensive Plan Consistency Review:**

- Forward Dallas 2.0 is the citywide Comprehensive Plan for future land use in the City of Dallas. Adopted by the City Council in September 2024, the plan includes a future land use map, and guidance for a future vision of the City of Dallas. It also establishes goals and guidelines for land use and other decisions by the City. According to the City of Dallas’s Development Code, the comprehensive plan serves merely as a guide for rezoning requests but does not establish zoning boundaries nor does it restrict the City’s authority to regulate land use.

• **Consistency Review Recommendation**

The proposed zoning change of lodging use is **consistent** with Forward Dallas 2.0 as the site is completely within the **Regional Mixed-Use** placetype which is primarily intended for a wide range of large retail, commercial, office and institutional uses connected by Dallas’ major roadways. High-rise office towers, multifamily dwelling units, and low- to mid-rise residential buildings for condominiums or apartments are located throughout placetype. Within more urbanized areas, regional commercial development includes a mix of uses organized in a compact, walkable environment.

- **Placetype Summary**

Placetypes describe the long-term vision and desired building and preservation characteristics for different places within the city including neighborhoods, mixed-use areas, employment and industry centers, and open spaces. Local commercial and office uses, as well as neighborhood-scaled apartments, may also be found, generally along main streets and at intersections, offering convenient access to goods and services, promoting a greater mix of uses, and supporting active, walkable environments.

Other Contextual comments related to long-range plan

Area Plans

The 360 Area Plan – Interagency Plan is relevant for this area.

The 360 Plan is a strategic document that sets a clear, cohesive vision for Downtown Dallas and its surrounding neighborhoods, guiding the City Center to continued, long-term success. It is organized around the idea of creating a complete and connected City Center that provides an enriching urban experience for residents, workers, and visitors. The public-private planning process coalesced into a unified vision and three transformative strategies to: 1). Advance urban mobility, 1). Build complete neighborhoods, and 3). promote great placemaking.

The plan is an update to the 2011 Downtown Dallas 360 and was adopted by City Council in 2017. To date, the area has seen significant transformation with achievements of many action items detailed within the plan and leading to long-term vibrancy, including transit, streets, public spaces, urban design, housing, and parking.

Land Use:

	Zoning	Land Use
Site	PD 193(O-2)	Office
North	PD 193 (O-2)	Multi Family, Retail/Multi Family
East	PD 193 (O-2)	Institutional (William B. Travis Academy), Office
South	PD 193 (O-2)	Multi Family
West	PD 193 (O-2)	Multi Family, Office

Land Use Compatibility:

The area of request is currently zoned Planned Development District 193 Oaklawn Special Purpose District with O-2 Office Subdistrict and Deed Restrictions Z79-189 and developed with an office building since 1981. The applicant is proposing to terminate the deed restrictions and create a new subdistrict within PD 193 to redevelop the property with a six story hotel.

The surrounding properties are also zoned PD 193 to the north, south, east, and west and mainly developed with a mix of uses. To the north, south, and east are developed with multi family, office, and some retail. To the west of the property is an institutional use – William B. Travis Academy.

PD 193 allows hotel uses within the O-2 Office District with a height of 240'; however, the existing deed restrictions do not allow a structure on the property to exceed three floors of occupancy within the building and height not to exceed 48 feet tall.

The property is in an urbanized, walkable area surrounded mainly by high-rise buildings that far exceed six stories to the northwest, west, and south and served by a trolley along the Cole Avenue frontage.

Staff finds the applicant’s requested zoning change to a new subdistrict to PD 193 and termination of existing deed restrictions to allow a new 6-story hotel to be compatible with the purpose of PD 193 to achieve buildings more urban in form and with the compact, walkable environment of the Regional Mixed-Use placetype character designation of the Comprehensive Plan.

Staff supports the applicant’s request and finds the proposed rezoning to be appropriate for this area as it would not be detrimental to surrounding uses. This compatibility is further reflected in the development standards comparison table below.

Development Standards:

The following is a comparison chart of the development standards for the current planned development with O-2 Office District for a hotel use and the proposed planned development new subdistrict with O-2 Office District for the proposed hotel use for comparison.

District	Setback		Density/ FAR	Height	Lot Cvrg	Special Standards

Landscaping:

The site is currently developed with an office building. Redevelopment of the property with the proposed hotel would necessitate compliance with Landscaping requirements of PD 193, and as amended in PD 193 newly proposed subdistrict conditions.

Parking:

Under the requested new Planned Development Subdistrict, the applicant is proposing to redevelop the property with a new hotel.

The applicant is proposing 0.4 parking spaces per guest room for the proposed hotel and 1 space per each additional 250 SF of floor area over 3,000 SF for the restaurant without drive-in or drive-through service.

Staff recommends parking per Ch. 51 for parking since the property is situated within significant transit access and would not require parking. A trolley stop for the McKinney Avenue trolley is directly in front of the entrance off Cole Avenue and an improved trolley stop will be provided for the hotel.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is in an “F” MVA area. The site is surrounded by the “F” MVA area to the north, south, and east immediately adjacent to the site. The site is surrounded by the “D” MVA area to the west.

TERMINATION OF DEED RESTRICTIONS

III.

The Owner does hereby terminate and release the following restrictions as they apply to the Property, to wit:

- (1) No structure on the property shall exceed three floors of occupancy, with the building not to exceed 48 feet in height, as those terms are defined in the Comprehensive General Zoning Ordinance of the City of Dallas.

Proposed PD Conditions

Division S-____. PD Subdistrict ____.

SEC. S-____.101. LEGISLATIVE HISTORY.

PD Subdistrict ____ was established by Ordinance No. _____, passed by the Dallas City Council on _____, 2026.

SEC. S-____.102. PROPERTY LOCATION AND SIZE.

PD Subdistrict ____ is established on property bounded by Allen Street, Cole Avenue, and Sneed Street. The size of PD Subdistrict ____ is 0.5930 acres.

SEC. S-____.103. DEFINITIONS AND INTERPRETATIONS.

(a) Unless otherwise stated, the definitions and interpretations in Chapter 51 and Part I of this article apply to this division. If there is a conflict, this division controls. If there is a conflict between Chapter 51 and Part I of this article, Part I of this article controls.

(b) In this division:

(1) **BLANK WALL** means a ground floor portion of the exterior of a building that fronts on a street and does not include a material change, windows, doors, columns, pilaster, or other articulation greater than eight inches in depth. Blank wall area is measured horizontally on each story.

(2) **HABITAT GARDEN** means any planting areas that are native or native adaptive species to north Texas with low water or very low water consumption characteristics with the intention of attracting or providing habitat for bees, birds, butterflies, or other pollinators or a combination thereof.

(3) **LAST-MILE DELIVERY VEHICLE** means vehicles for short-term deliveries including, but not limited to, restaurant and food delivery and last-mile retail contract delivers that are typically made in non-commercial vehicles that can safely park and maneuver within a standard parking space.

(4) **MICRO-MOBILITY CHARGING** means an electrical charging station or outlet available for charging micro-mobility vehicles such as e-scooters and e-bikes.

(5) SUBDISTRICT means a subdistrict of PD 193.

(6) TRANSPARENCY means the total area of window and door openings filled with glass, or louvers or openings in a parking garage facade, expressed as a percentage of the facade area on each story.

(c) Unless otherwise stated, all references to articles, divisions, or sections in this division are to articles, divisions, or sections in Chapter 51.

(d) This subdistrict is considered to be a non-residential zoning district.

SEC. S-____.104. EXHIBITS.

The following exhibit is incorporated into this division: Exhibit S-____A: development plan.

SEC. S-____.105. DEVELOPMENT PLAN.

Development and use of the Property must comply with the development plan (Exhibit S-____A). If there is a conflict between the text of this division and the development plan, the text of this division controls. Signs are not required to be shown on the development plan.

SEC. S-____.106. MAIN USES PERMITTED.

(a) Except as provided in this section, the only main uses permitted in this subdistrict are those main uses permitted in the O-2 Office District 2 Subdistrict, subject to the same conditions applicable in the O-2 Office District 2 Subdistrict, as set out in Part I of this article. For example, a use permitted in the O-2 Office District 2 Subdistrict only by specific use permit (SUP) is permitted in this subdistrict only by SUP; a use subject to development impact review (DIR) in the O-2 Office District 2 Subdistrict is subject to DIR in this subdistrict; etc.

(b) The following uses are permitted:

- Restaurant without drive-through service.

(c) The following uses are prohibited:

- (1) Bar and restaurant uses.
 - Dance hall.

- (2) Commercial uses.

- Diamond and precious stone sales (Wholesale only)

(3) Motor vehicle related uses.

- Service station.

(4) Storage and waste disposal uses.

- Recycling buy-back center.
- Recycling collection center.
- Recycling drop-off container.
- Recycling drop-off for special occasion.

(5) Utility and public service uses.

- Electrical substation.
- Radio, television, or microwave tower.
- Sewage pumping station.
- Telephone exchange, switching, and transmitting equipment.
- Water reservoir, well, or pumping station.

SEC. S-___.107. ACCESSORY USES.

(a) As a general rule, an accessory use is permitted in any subdistrict in which the main use is permitted. Some specific accessory uses, however, due to their unique nature, are subject to additional regulations in Section 51P-193.108. For more information regarding accessory uses, consult Section 51P-193.108.

(b) Hotel and motel accessory uses.

- (1) The following accessory uses are permitted in this district --
- Conference room.
 - Event space.
 - Fitness facility.
 - Gift shop.
 - Meeting space.
 - Swimming pool.

(2) There is no maximum floor area for accessory uses based on the size of the hotel.

(b) The following accessory uses are prohibited in this district

- Amateur communication tower.
- Game court (private).
- Home occupation.
- Occasional sales (garage sales).

SEC. S-____.108. YARD, LOT, AND SPACE REGULATIONS.

(Note: The yard, lot, and space regulations in this section must be read together with the yard, lot, and space regulations in Part I of this article. If there is a conflict between this section and Part I of this article, this section controls.)

(a) In general. Except as provided in this section, the yard, lot, and space regulations for the O-2 Office District 2 Subdistrict apply.

(b) Front yard.

(1) In general. Minimum front yards shall be as follows:

(A) Minimum front yard along Cole Street is 15 feet.

(B) Minimum front along Allen Street is 10 feet.

(C) Minimum front yard along Sneed Street is 10 feet.

(c) Required yard.

(A) Minimum required yard on the northwestern property line is 5 feet.

(d) Floor area ratio. No maximum floor area ratio for multiple-family uses, provided that the multiple-family use is at least 65 percent of the total floor area. Otherwise, maximum floor area ratio is 4.7

(e) Encroachments. The following may encroach into the front yard setback:

(1) Architectural elements.

(2) Landscape planters.

(3) Benches.

(4) Seat walls or retaining walls.

(5) Canopies or awnings.

(6) Patios

(7) City-required utilities.

(8) Trolley Stop.

(9) Art.

(10) Micro-mobility chargers and parking

(11) Bike racks

(12) Ordinary projections of windowsills, bay windows, belt courses, cornices, eaves, art, fountains, balconies, and other architectural features.

SEC. S-____.109. OFF-STREET PARKING AND LOADING.

(a) In general. Except as provided in this section, consult Part I of this article for the specific off-street parking and loading requirements for each use.

(b) Bicycle parking. A minimum of four bicycle parking spaces must be provided.

(c) Off-street parking.

(1) Hotel and motel. A minimum of 0.4 space for each unit shall be required.

(2) Restaurant without drive-in or drive-through service. 1 space per each 250 SF of floor area over 3,000 SF.

(d) Parking structures. All required parking must be located below grade or be concealed to the street by the main building.

(e) Off-street loading. One medium space shall be provided. Loading shall be internal to the site.

(f) Last-mile delivery vehicle space. One last-mile delivery vehicle space must be provided in the drop-off area as shown on the development plan and clearly marked by a sign allowing a maximum parking time of 15 minutes.

Staff Recommendation

(a) In general. Off-street parking spaces and loading requirements must be provided in accordance with Chapter 51, as amended.

(b) Consult the use regulations (Division 51-4.300) for the specific off-street parking and loading requirements for each use. Consult the off-street parking and loading regulations (Chapter 51-4.300) for information regarding off-street parking and loading generally.

(c) Parking structures. All required parking must be located below grade or be concealed to the street by the main building.

(d) Last-mile delivery vehicle space. One last-mile delivery vehicle space must be provided in the drop-off area as shown on the development plan and clearly marked by a sign allowing a maximum parking time of 15 minutes.

SEC. S-____.110. ENVIRONMENTAL PERFORMANCE STANDARDS.

See Article VI.

SEC. S-____.111. LANDSCAPING.

(a) In general. Except as provided in this section, the landscaping regulations in this section must be read together with the landscaping regulations in Part I of this article. If there is a conflict between this section and Part I of this article, this section controls.

(1) The area along the northwest property line is a required yard and is not considered frontage for landscaping purposes.

(2) Required landscape may be planted in the right-of-way.

(b) Habitat garden standards.

(1) The landscaping must conform to habitat garden standards and be maintained with industry best practices to promote the healthy development and maintenance of pollinator habitats.

(2) Turf and lawn areas are considered planting areas, provided however, that lawn and turf areas use grasses that are not considered low or very low water consumption.

(3) Habitat garden signage. A unified signage program identifying habitat gardens, with reference to the City of Dallas Comprehensive Environmental and Climate Action Plan (CECAP), may be provided in planting areas, with a minimum of one sign per street frontage.

(c) Irrigation.

(1) Drip irrigation may be used in areas that are no wider than four 4' feet wide or less. Irrigation provided in other areas must be low-impact, high efficiency.

(2) Condensate from base building HVAC cooling coils that are greater than five tons must be re-used for cooling tower makeup or irrigation. Excess condensate must be discharged to sanitary sewer if the amount of condensate wastewater exceeds the irrigation and cooling tower makeup water needs of the Property.

(d) Maintenance. Plant materials must be maintained in a healthy, growing condition.

Staff Recommendation

SEC. S-___.111. LANDSCAPING.

(a) In general. Except as provided in this section, the landscaping regulations in this section must be read together with the landscaping regulations in Part I of this article. If there is a conflict between this section and Part I of this article, this section controls.

(1) The area along the northwest property line is a required yard and is not considered frontage for landscaping purposes.

(2) Required landscape may be planted in the right-of-way.

(b) Habitat garden standards.

(1) The landscaping must conform to habitat garden standards and be maintained with industry best practices to promote the healthy development and maintenance of pollinator habitats.

(2) Turf and lawn areas are considered planting areas, provided however, that lawn and turf areas use grasses that are not considered low or very low water consumption.

(c) Irrigation.

(1) Drip irrigation may be used in areas that are no wider than four 4' feet wide or less. Irrigation provided in other areas must be low-impact, high efficiency.

(2) Condensate from base building HVAC cooling coils that are greater than five tons must be re-used for cooling tower makeup or irrigation. Excess condensate must be discharged to sanitary sewer if the amount of condensate

wastewater exceeds the irrigation and cooling tower makeup water needs of the Property.

(d) Maintenance. Plant materials must be maintained in a healthy, growing condition.

SEC. S-___.112. SIGNS.

Except as provided herein, signs must comply with the provisions for business zoning districts in Article VII.

Staff Recommendation

SEC. S-___.112. SIGNS.

Signs must comply with the provisions for business zoning districts in Article VII.

SEC. S-___.113. DESIGN STANDARDS.

(a) In general. Design standards may be located in the right-of-way subject to approval by the director.

(b) Sidewalks and pedestrian paths.

(1) Prior to the issuance of a certificate of occupancy for any redevelopment or additions on the Property after passage of this ordinance, the following sidewalks and pedestrian paths are required.

(2) A minimum five-foot-wide unobstructed sidewalk with a minimum five-foot-wide buffer.

Staff Recommendation

(2) A minimum **six-foot-wide unobstructed sidewalk with a minimum five-foot-wide buffer**.

(3) Pedestrian pathways. Unobstructed sidewalks located within the public right-of-way may count toward the pedestrian pathway requirement when all other criteria in this paragraph are met.

(4) Subject to approval of the director, across all driveways and curb cuts, a sidewalk must be:

(A) designed to be at the same grade as the adjoining sidewalk;
and

(B) clearly marked by concrete, integral, patterned or stamped concrete, or brick pavers to indicate pedestrian crossing.

(c) Driveways.

(1) Maximum number of driveways per street frontage is one, except for Cole Avenue where it is two.

(2) Maximum driveway width is 20 feet for Sneed Street and Allen Street.

(d) Building design.

(1) Façade transparency. Minimum 20 percent on each façade.

(2) Facade articulation.

(A) Blank walls longer than 45 feet are prohibited on each facade.

(B) The following are examples of articulation that may be provided to meet this requirement:

(i) A minimum of one change in plane for each 30 feet of horizontal or vertical articulation, such as an offset, reveal, recess, or projection. Changes in plane must have a width of no less than 24 inches and depth of at least eight inches and may include columns, planters, arches, and niches;

(ii) Architectural details such as raised bands or cornices.

(iii) Architecturally prominent entrances.

(iv) Increased transparency.

(v) Variations in fenestration or building massing.

(vi) Canopies.

(vii) Awnings.

(viii) Balconies.

(viii) Change in building materials.

(e) Roofs.

(1) All rooftop mounted equipment must be screened or hidden from view of the pedestrian.

(2) At least 1,000 square feet of photovoltaic cells for producing solar energy must be located on a roof area of the main building.

(3) A minimum of 40 percent of the roof area shown on the development plan shall be covered with improvements that minimize heat production such as turf, synthetic turf, raised planters or planting beds, pedestrian concrete, pavers, light-colored roof materials, tile, photovoltaic cells, swimming pools, water features, and shade structures.

(f) Trolley stop. A trolley stop, inclusive of the necessary flatwork and rails, shall be provided along Cole Avenue.

(g) Micro-mobility charging.

(1) A minimum of two micro-mobility charging spaces must be provided at grade level and accessible from the public right-of-way.

(2) Each micro-mobility charging space must accommodate a minimum of two micro-mobility vehicles.

(h) Pedestrian amenities.

(A) Prior to the issuance of a certificate of occupancy for any redevelopment or additions after passage of this ordinance, a minimum of the following pedestrian amenities must be provided:

(1) A minimum of one bench and one trash receptacle must be provided along Sneed Street, and Cole Avenue.

(2) A minimum of one bench and one trash receptacle must be provided at the trolley stop.

(3) Pedestrian areas must be separated from driveway areas by plantings, bollards, or similar barriers.

(i) Recycling. Recycling containers must be available for residents and on-site workers.

(j) Façade Lighting. Exterior lighting sources, if used, must be oriented down and onto the property they light and generally away from adjacent residential properties.

SEC. S-____.114.

ADDITIONAL PROVISIONS.

(a) The Property must be properly maintained in a state of good repair and neat appearance.

(b) Development and use of the Property must comply with all federal and state laws and regulations, and with all ordinances, rules, and regulations of the city.

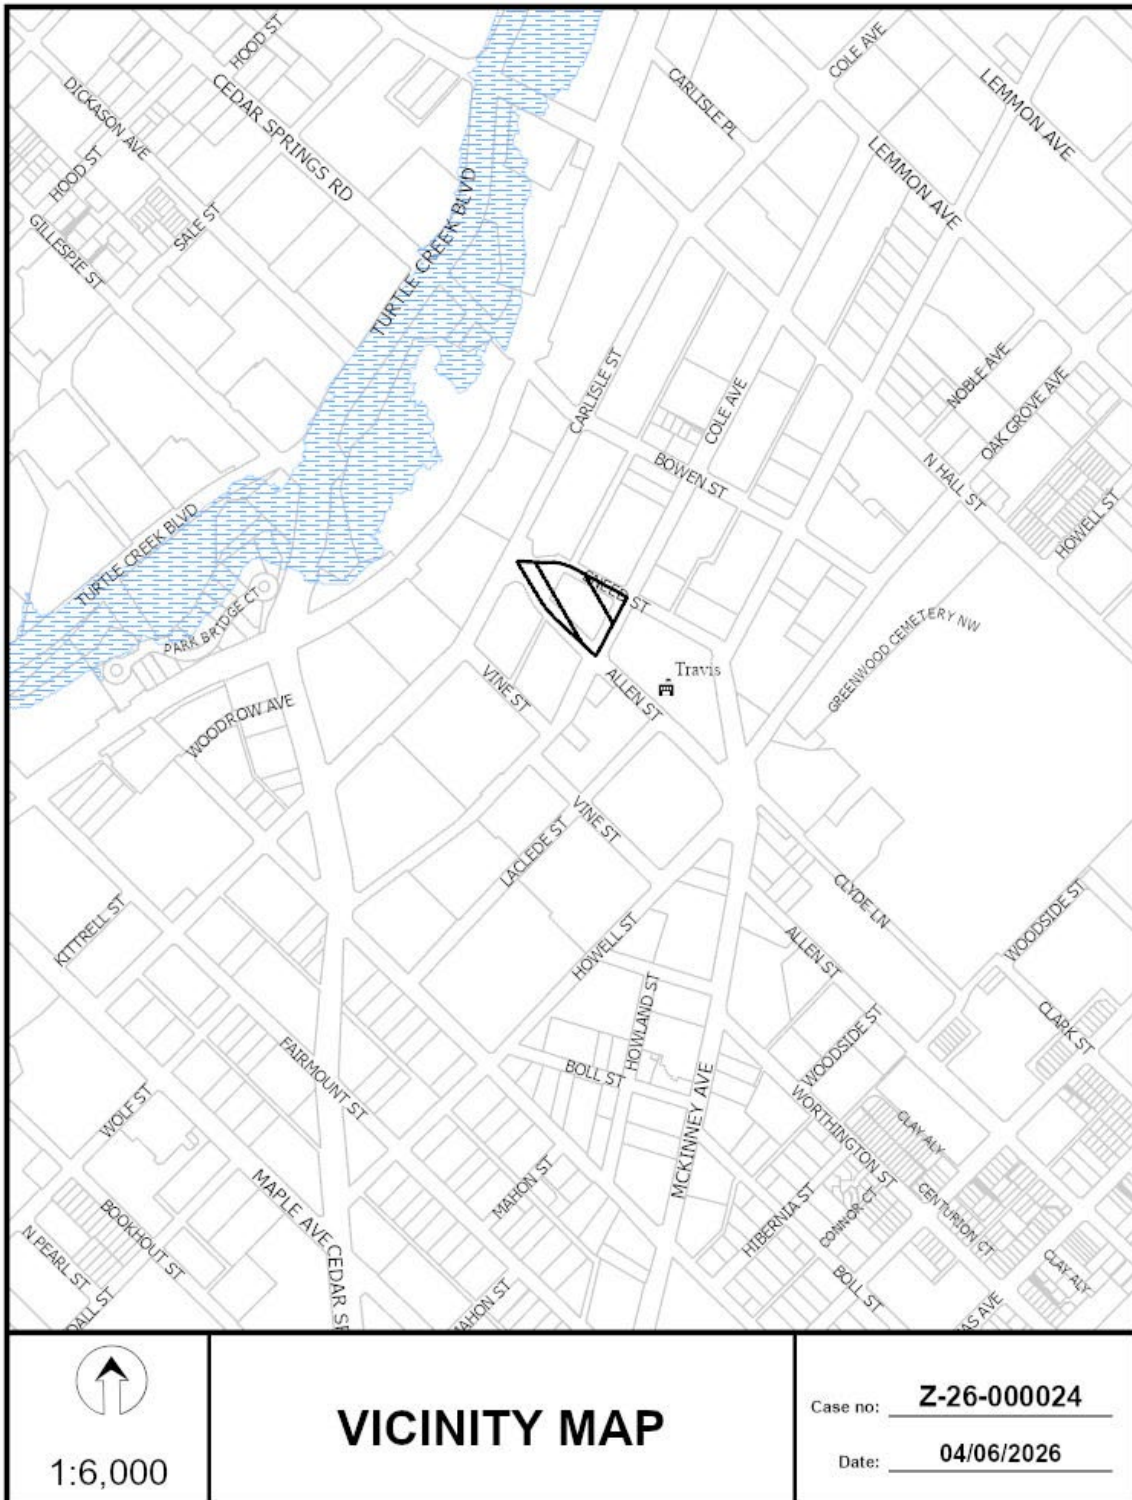

(c) Development and use of the Property must comply with Part I of this article.

(d) Outdoor amplified sound as measured at the Property line may not exceed 63 decibels and may not be utilized after 10:00 p.m. or before 7:00 a.m.

SEC. S-___.115. COMPLIANCE WITH CONDITIONS.

(a) All paved areas, permanent drives, streets, and drainage structures, if any, must be constructed in accordance with standard city specifications, and completed to the satisfaction of the city.

(b) The building official shall not issue a building permit to authorize work, or a certificate of occupancy to authorize the operation of a use, in this subdistrict until there has been full compliance with this division, the Dallas Development Code, the construction codes, and all other ordinances, rules, and regulations of the city.
